Welcome

From the Dean of **Graduate Studies**

Trinity College Dublin, the University of Dublin, is Ireland's leading university and our professors are inspiring thought leaders in their respective fields. Our facilities combine the unique charisma of an age-old university campus with 21st century teaching, learning and research opportunities.

Our postgraduate students, drawn from all parts of the globe, continually inspire us with their diversity, commitment and academic contributions. Our graduates are outstanding and are held in high esteem by employers. As global citizens they continue to create and drive our future, both nationally and internationally.

We look forward to welcoming you into this vibrant, scholarly community, where you will be challenged to fulfil your potential, both academically and personally in your postgraduate study.

Professor Martine Smith

Dean of Graduate Studies, Trinity College Dublin, the University of Dublin

Ireland's top-ranked university, and 75th in the world

Why Choose Trinity?

Trinity College Dublin The University of Dublin

World-Class Education

Trinity College Dublin, the University of Dublin is Ireland's top-ranked university and 75th in the world (QS World University Rankings 2026). Our professors lead their fields, contributing to research and academic teaching with real-world impact. Trinity offers a wide range of postgraduate courses across 24 Schools. Find out more at:

Postgraduate Courses →

Graduate Career Opportunities

Ireland is a hub for global employers, including Meta, Google, Microsoft, and Pfizer—and they are part of Trinity's network of 500 enterprise partners. Trinity is also ranked 91st in the world for graduate employability (QS World Employability Rankings 2022) and our students are sought after in many industries. Find out more at:

Career Opportunities at Trinity →

Trinity is the 35th most international university in the world with students from 126 countries

Times Higher Education Rankings 2025

Reputation for Research and Teaching Excellence

Trinity is Ireland's leading university and recognised internationally as a research innovator. We a member of the League of European Research Universities (LERU), leading institutions uniting global experts across all disciplines for forward-looking and impactful research that inspires our students, within the curriculum and into their postgraduate careers. Find out more at:

Trinity's Strong Research Reputation →

Iconic Location

Trinity is situated on a beautiful campus in the heart of Dublin's centre, close to the national transport hub and international airport. The campus blends modern and traditional facilities, including the country's largest research library, the historic Book of Kells, and the innovative Trinity Business School. Find out more at:

Visit Our Campus →

Addressing Societal Challenges

Our university is committed to making society more equitable through the work of its esteemed academics and students. Trinity leads initiatives across Dublin and Ireland, while its global reach gives forward-looking thinkers access to the resources needed to have a positive impact on our planet. Find out more at:

Trinity Research →

Student Supports

Trinity is committed to giving its students access to all support services needed, addressing a range of administrative and academic learning, IT, personal health and wellbeing, and accommodation issues. Other supports include the Careers Service and an Alumni Career Network for support after graduation. Find out more at:

Supports & Services →

Distinguished Alumni

Over four centuries, Trinity graduates have led on the world stage; famed authors, from Oscar Wilde to Samuel Beckett, Nobel prize-winners, including Ernest Walton, and Irish presidents, such as Mary Robinson, have attended Trinity or taught here. Today, our alumni network features 150,000+ graduates across all industries. Find out more at:

Trinity Alumni →

Student Life

Trinity offers an unparalleled university experience, with 168 sports clubs and societies led by students, for students. These are among the most robust and active in the country, while course-specific social events are arranged for you to get to know your new classmates. Find out more at:

Clubs & Societies →

Postgraduate Research at Trinity

Trinity is recognised as one of the world's leading research-intensive universities and its research continues to address issues of global, societal and economic importance.

Trinity has research strengths that span the Arts, Humanities and Social Sciences, STEM and Health Sciences, a spectrum that is mirrored by our broad range of taught postgraduate courses and research opportunities at Masters and doctorate level.

Postgraduate Research Students

Applying for a Masters by Research or PhD at Trinity

As a truly international university, we welcome applications from prospective postgraduate students across the globe and we hope you will choose Trinity for your PhD research programme.

Here are four steps to help on your journey towards starting postgraduate research at Trinity.

Research is at the heart of everything we do at Trinity

Research at Trinity →

Step 1: Find a Potential Academic Supervisor

First, explore Trinity's research areas and determine your subject of interest. The university offers opportunities for innovative postgraduate projects across a range of research groups and centres. Find out more at:

Trinity Research Themes \rightarrow

The next step is to contact the academic staff relevant to your field and identify a potential supervisor. You can find our research staff at:

 $\underline{\text{Trinity Research People}} \rightarrow$

Step 2: Make Contact with Potential Academic Supervisor

Once you have found potential academic supervisors, contact them with a brief research proposal, demonstrating your interest and relevant experience in the research area.

If an academic is willing to support your PhD application, they will direct you to the relevant school's online application page. Some Trinity schools have specific application guidelines, so please check each school's requirements at:

Postgraduate Research →

Step 3: Submit your Application

Submit your application following the guidelines provided by your potential supervisor. Your application must include a detailed research proposal, as well as academic transcripts, proof of English proficiency, a CV and any other relevant documents.

Your application is then reviewed by the relevant school. The Dean of Graduate Studies conducts the final review and will issue approval for the PhD if you have met all criteria.

Step 4: Explore Funding Opportunities

Once you find an academic willing to supervise your research, they will advise you of relevant funding opportunities through Irish and European funding agencies. You may also:

- Contact scholarship awarding bodies in your home country for possible PhD funding.
- Trinity offers postgraduate awards available only to students registering for full-time higher research degrees, such as PhDs.
 Find out more at: Scholarships & Funding →
- Contact the Regional Manager for your country for information on other funding opportunities.
 Details of these staff can be found at: <u>Country/Region Pages</u> →

Trinity is the first and only Irish university to join the prestigious ranks of the League of European Research Universities (LERU).

Yumi Yeo Singapore

M.Sc. Applied Clinical Neuropsychology Graduate

"I chose Trinity for its unique and forward-thinking approach in a field I'm passionate about. The university's prestigious reputation adds immense value to my academic journey. What I enjoy most about being a Trinity student is the strong sense of camaraderie and the welcoming community; it is truly inspiring to be surrounded by like-minded peers and professors who genuinely support and motivate one another, making the experience both fulfilling and enriching."

Minh Trinh Vietnam

M.Sc. in Applied Social Data Science Graduate

"Initially, I chose Trinity for its global reputation of excellence research and teaching. When I arrived, I was truly impressed by how active the Student's Union is. I can feel a sense of freedom and intellectual curiosity around the campus. The lecturers are true social scientist while being very attentive about my success in the programme. Trinity has a big network of alumni which are talented and are willing to help with career advice."

Employability and Careers

Trinity College Dublin The University of Dublin

At Trinity we work closely with industry to ensure our programmes produce graduates ready for employment in their chosen sector. Many global technology, engineering, and pharmaceutical enterprises are located in Dublin, while the city also has a vibrant arts and creative scene.

The Trinity Careers Service links you with these companies through careers fairs and events held throughout the year.

Trinity Careers Service → Watch Trinity Careers Service →

We also help you explore your career options and ambitions through:

- CV advice and interview preparation;
- interactive employability skills workshops;
- one-to-one guidance with experienced careers experts; and
- employability awards and leadership programmes.

Our online MyCareer system helps students explore job opportunities and on-campus careers events. You can also meet and be inspired by our Trinity alumni now employed in a range of sectors. Start planning your career journey at:

Trinity Careers Service →

Stay Back Work Permit for International Students

Students from outside the European Union (EU) with permission to undertake postgraduate study in Ireland are entitled to take up casual employment, defined as up to 20 hours part-time work per week or full-time work during vacation periods.

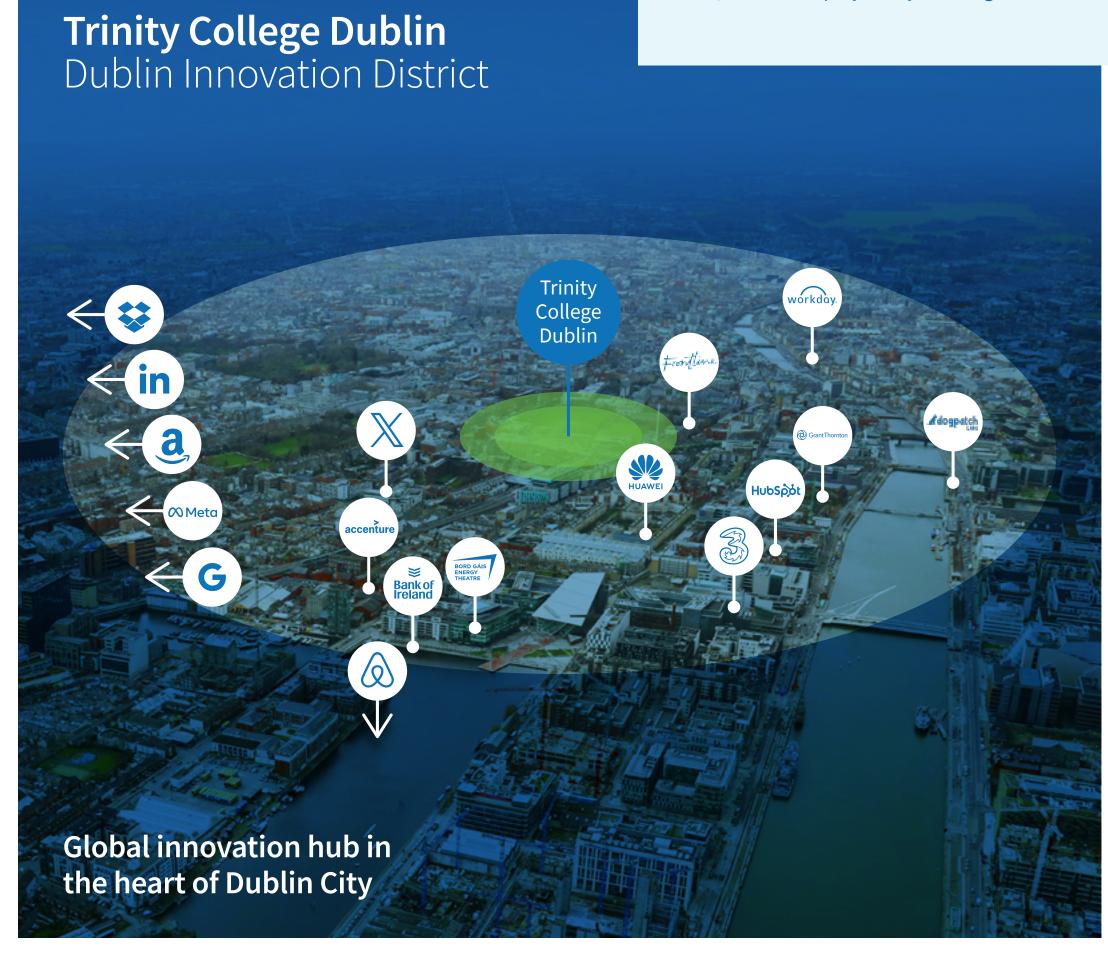

To encourage talented, skilled graduates to pursue careers in Ireland, nationals from outside the EU are permitted to remain in Ireland for an additional period of 12–24 months after receipt of results of their final examinations as part of the Third Level Graduate Scheme. See more at:

Irish Immigration \rightarrow

Students from the EU are free to take up employment under standard EU free movement of labour regulations. However, mixing employment with study can be challenging, and it is recommended that students possess the financial resources to complete their chosen academic course.

Trinity is ranked 91st in the world for graduate employability

QS World Employability Rankings 2022

Trinity College Dublin The University of Dubli

Lauren Yang United States

M.Sc. Biodiversity and **Conservation Graduate**

"When I chose Trinity, I knew the coursework would be fantastic and advance my career. But what has impacted me the most has been the relationships with my professors. As a masters student, they encouraged original thinking and research which has allowed me to study exactly what I wanted. The success I've had in academia I directly attribute to their care and support."

Willian Goncalves Brazil

"I chose Trinity for its global reputation, the tech opportunities in Dublin's 'Silicon Docks,' and Trinity's cultural diversity. I really appreciate the robust career support from professors, the careers team, and alumni, and, most importantly, the daily opportunity to apply the knowledge gained in lectures through real-case projects. Choosing Trinity feels like the best decision, aligning me with inspiring individuals and propelling me towards my professional goals."

Student Support

Postgraduate **Advisory Service**

The Postgraduate Advisory Service offers a comprehensive range of academic, pastoral, and professional supports designed to enhance your student experience. Find out more at:

Postgraduate Advisory Service →

Trinity Global Room

The Trinity Global Room is a great first stop for students with questions about navigating Trinity, Dublin and Ireland. This is a place where international and Irish students can meet in a social and friendly environment at the hundreds of events run at the Global Room each year, see:

International Student Supports →

Academic Registry

Academic Registry provides academic administrative services to assist students with all queries about course applications and admissions, fees, registration, timetables, examinations and assessments. Find support at:

Academic Registry →

Student Services at Trinity

Watch Student Services at Trinity →

Trinity Health Service

Trinity's Health Service provides free GP consultations for students, with modest fees for additional services. EU students should bring a European Health Insurance Card from their country of origin.

Non-EU students are not entitled to free national health services in Ireland, and are advised to obtain or extend private health insurance cover before leaving their home country. Private health insurance is also available in Ireland and the student health service can advise you on your options, for more see:

Health Insurance →

Student Counselling Service

Student counselling at Trinity is a confidential, professional and free of charge service. There is also a confidential Peer Support Network where you can get support from fellow students. Learn more at:

Student Counselling →

Trinity is top 50 in the world for 4 subjects and top 100 for 22 subjects

QS World University Rankings 2025

Disability Service

The Student Disability Service works closely with academic staff, tutors, administrators and other support services to meet the requirements of students with any disability, see:

Accommodation

Many postgraduate students find accommodation in shared houses or self-catering apartments. Houses and apartments vary in price, depending on size, facilities, and location.

The Students' Union offers a useful Accommodation Advisory Service. Find out more at:

Students' Union Accommodation Advisory Service →

A limited number of students may be housed in Trinity's recommended accommodation close to the university. For further details see:

Student Accommodation →

The earlier you begin searching for accommodation, the more options you will have in a suitable location and price range.

Ireland is the 2nd most peaceful country in the world

Global Peace Index 2025

Matis Fatehali-Javer France

M.Sc. in Engineering

"I chose Trinity for its global reputation and vibrant location in Dublin. The one-year Engineering programme suited my goals perfectly. I've gained valuable technical skills, international experience, and adaptability through hands-on projects with diverse teamwork that will be essential for my future engineering career."

Fees and How to Apply

Trinity College Dublin The University of Dublin

Fees

Course fees vary based on the discipline, the duration of study, and whether you are considered a resident of the European Union (EU) or non-EU resident for the purposes of your application. A non-refundable online fee of €55 per application is required for all taught and research courses.

An EU application is one made by a person who fulfils one or more of the following criteria:

- 1. who is ordinarily resident in the EU and has received full-time further or higher education in the EU for three of the five years immediately preceding admission; or
- 2. who is ordinarily resident in the EU and has worked full-time in the EU for three of the five years immediately preceding admission; or
- 3. who holds a passport from an EU state and has received full-time further or higher education in the EU for three of the five years immediately preceding admission.

All other applications are considered as non-EU. You can learn more about the application pathway for non-EU students at:

International Postgraduate Pathway →

Fee details for all courses are available at:

Student Finance →

How to Apply

Both postgraduate taught and research applicants apply at:

Postgraduate Courses →

By clicking on the specific course that you wish to apply for you will be directed to an application form where you will create or log in to your Trinity College Dublin user account and submit your application and supporting documents online. In some cases, there may be a requirement to complete a supplementary application form consisting of additional questions or documents. Please check the specific details for your course at:

Postgraduate Courses →

Once you have submitted an online application you will be sent an acknowledgment email to the email address you provided when setting up your user account through the applicant portal.

The applicant portal allows you to send and receive communications around your Trinity application. You can track your application's progress at every stage of the admissions process; update personal data; view decisions made on your application(s); and accept any offers of study you may receive.

Before making an application, please read the following:

- Choose your course at: Postgraduate Courses →
- Consider whether you meet the admission requirements.
- Gather the supporting documents you need to upload as part of your application.
- All of Trinity's postgraduate taught programmes are subject to minimum entry requirements.

Louise Gallagher Ireland

34

M.Sc. Advanced Practice (Midwifery) Graduate

"I enjoyed the sense of community, academic excellence, and the opportunity to grow both personally and professionally. Trinity inspires confidence, innovation, and lifelong connections that will support me throughout my career."

Postgraduate Admission Requirements

Postgraduate study at Trinity is academically challenging and all courses have high entry requirements. To qualify for admission to a degree course at the university, applicants will need to:

 Hold at least a 2.1 honours degree from an Irish university or equivalent result from a university in another country.

Trinity College Dublin The University of Dublin

 Display a high level of competence in the English language in one of the examination systems recognised by Trinity.

36% of Trinity students are from 126 different countries across the world

Visa Requirements

If you are a citizen of the European Union (EU), European Economic Area (EEA), Switzerland or UK, you do not need a visa to enter and live in Ireland.

Some, but not all, non-EU/EEA/Swiss/UK students require an entry visa for Ireland. Visa-required non-EU students should contact their nearest Irish Embassy or Consulate for details on visa requirements. We advise students to apply for their entry visa early as they can take up to 8–12 weeks to process. Please visit:

Irish Immigration \rightarrow

All non-EU/EEA/Swiss/UK students, whether visa-required or not, must register with Immigration Service Delivery (ISD) for permission to remain in the state. Students must show their offer letter from Trinity at airport immigration, where they will receive a temporary stamp in their passport allowing them to enter Ireland. They must then register with ISD within the time limit specified on their temporary stamp to gain a student visa. For more about visa and immigration information, please visit:

Visa & Immigration →

Postgraduate Prospectus 2026

Faculty of Arts, Humanities and Social Sciences

Business

Accounting and Analytics M.Sc. / P.Grad.Dip.

Course Page Link →

Duration	1 year full-time
Course Director	Dr Neil Dunne (FCA)
Email	business.masters@tcd.ie
Closing Date	31st July 2026

The M.Sc. in Accounting and Analytics is a twelve-month programme designed for students seeking advanced expertise in accounting and data analytics. This M.Sc. provides a comprehensive skill set that meets the evolving demands of financial and professional services industries.

The programme includes core modules such as financial reporting, taxation, audit, and financial management, along with analytics-focused coursework. In the final semester, students undertake the Analytics for Accounting Capstone module, delivered in collaboration with Deloitte, integrating AI, big data analysis, and robotic process automation into real-world financial and business challenges.

Career Opportunities

Graduates are highly attractive to employers in accounting, finance, and consultancy. Career opportunities include roles in audit, financial management, risk analysis, investment management, and taxation. The M.Sc. also prepares graduates for leadership roles in financial services, corporate finance, and global accounting firms.

Admission Requirements

Applicants are required to posses a minimum 2.1 Honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Business Analytics M.Sc.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Dr Ashish Kumar Jha
Email	business.masters@tcd.ie
Closing Date	31st July 2026

Our M.Sc. in Business Analytics is designed for students with a quantitative background. The programme equips graduates with the skills and knowledge to launch a career in this fast-expanding field. In an increasingly digital world, organisations now need evidence-based reports to inform decisions and organise vast amounts of data from multiple sources.

This semi-technical course will focus on the application of modern operational research and management science techniques to solve business problems and support management decisions. Gain a wide range of capabilities including technical skills, business knowledge, and advanced problem-solving methods. Students will be introduced to various analytic frameworks like CRISP-DM and gather an understanding of the rising global legislation in the area of data management. In the final term, students can choose to complete an industry project to gain real business experience or pursue a dissertation on a topic of their choosing.

Career Opportunities

Our students will be equipped for careers in all business sectors such as government, healthcare, education, transportation, and many others where decisions and policies need to be supported with data-based evidence.

Admission Requirements

Applicants are required to posses a minimum 2.1 Honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

English Language Requirements

Digital Marketing Strategy M.Sc.

Trinity College Dublin The University of Dublin

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Baidyanath Biswas
Email	business.masters@tcd.ie
Closing Date	31st July 2026

The M.Sc. in Digital Marketing Strategy is designed to provide students with the knowledge and tools required to become a highly skilled digital marketing strategist. Students will learn about digital design, the user experience, and how to plan and implement digital strategies.

The course focuses on how different companies do business in a digital world, coupled with a strong industry and partnership approach. A variety of leading digital companies are represented by expert guest speakers and faculty, including multinational companies such as Google, Facebook, Twitter, HubSpot and Microsoft. With the European headquarters of such companies situated nearby, students have the opportunity to visit them on company trips and learn how to master specific platforms such as Google Ads, Analytics, Facebook Insights and HubSpot tools.

Career Opportunities

This programme is an excellent foundation for a career working across many industries including technology, retail, consulting, manufacturing and pharma biotech/ health. Recent employers include Google, Accenture, Ebay and Glanbia.

Admission Requirements

Applicants are required to posses a minimum 2.1 Honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band C (Higher Entry) English language requirements. Visit the English Language Requirements page for more details.

Entrepreneurship and Innovation M.Sc.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Kisito Futonge Nzembayie
Email	business.masters@tcd.ie
Closing Date	31st July 2026

Ranked 1st in Ireland and 7th in the World for Entrepreneurship (Eduniversal 2023), this programme is built for those motivated by the desire to create. With a focus on technological and international entrepreneurship, we equip students with specialist knowledge and practical knowledge and practical skills needed to start new ventures, finance start-ups, support new enterprise and scale existing businesses.

This M.Sc. is specifically designed for students from a non business background with a strong entrepreneurial mindset and a passion for creating. Graduates gain the specialist knowledge and practical skills needed to start new ventures, finance start-ups, support new enterprise and scale existing businesses. We aim to produce graduates who will become future change-makers and who seek to shape and transform business for good.

Career Opportunities

Entrepreneurship graduates can establish a new venture or gain employment across several industries including finance and venture capitalism, IT, telecoms, social media, retail, tourism, pharmaceutical, healthcare, education, government, and social enterprise.

Admission Requirements

Applicants are required to posses a minimum 2.1 Honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

Financial Risk Management M.Sc.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Supriya Kapoor
Email	business.masters@tcd.ie
Closing Date	31st July 2026

This programme is designed for students with a quantitative background who want to explore how financial tools can be used to mitigate risk for corporations and society. Industry professionals, practitioners and consultants from around the world will teach you how to forecast, react to and minimise risk.

We deliver a comprehensive understanding of the core pillars of risk management; credit risk, market risk and operations risk to ensure you have the theoretical foundation for success. You will learn how to explore the key financial tools that are used to mitigate risk, how to interpret and assess the risk of individual financial instruments and assets and how to develop the critical skills to assess the results.

Career Opportunities

Officially recognised by GARP, the programme helps to prepare students for the likes of FRM and PRMIA examinations. The top employment sectors for graduates of this course are financial services, consulting, and technology. Typical employers include investment banks, hedge funds, and financial institutions.

Admission Requirements

Applicants are required to posses a minimum 2.1 Honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

English Language Requirements

Human Resource Management M.Sc.

Trinity College Dublin The University of Dublin

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Na Fu
Email	business.masters@tcd.ie
Closing Date	31st July 2026

Designed for students from all undergraduate disciplines, this programme has been fully accredited by the CIPD, the HR Certification Institute, and is fully aligned with the Society for Human Resource Management. You will gain the specialist knowledge and practical skills that are vital for future Human Resources Management professionals who strive to facilitate organisational effectiveness.

The programme is research-led, evidence-based, and practice-driven. Senior practitioners from the industry teach on the programme to offer you a strong integration of research and practice. Going beyond the classroom you will learn real organisational Human Resource Management in practice by interacting with a variety of organisations as part of the programme.

Career Opportunities

With increasing corporate focus on attracting, retaining and nurturing talent, graduates have a range of options in the field of HRM. Our dedicated careers team provides 1:1 support to students from the start of their journey to completion. Graduates can gain employment in various industries such as financial services, operations, pharmaceuticals, education, government and social enterprise.

Admission Requirements

Applicants are required to posses a minimum 2.1 Honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

English Language Requirements

Operations and Supply Chain Management M.Sc.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Sinead Roden
Email	business.masters@tcd.ie
Closing Date	31st July 2026

Ideal for students with strong analytical skills, this programme equips graduates with the tools and expertise to manage supply chain processes and their connected operations in a global and increasingly digitalised marketplace. Monitoring risk, leveraging innovation and managing collaboration are some of the core themes embedded in this programme.

Operations and supply chain management (OSCM) are core to every business and organisation. OSCM determines how resources are used, and how value is delivered to the end customer or user.

Career Opportunities

This programme allows graduates to blend the strategic and analytical skills acquired, with the soft skills of teamwork, relationship management and communication. These skills are now vital for every sector, from manufacturing, agri-food, consumer goods, construction, service sector, public sector, to the digital sector. Gone are the days of supply chain skills being resigned to 'just manufacturing or logistics'.

Admission Requirements

Applicants are required to posses a minimum 2.1 Honours degree or international equivalent. They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee).

Responsible Business and Sustainability M.Sc.

Course Page Link →

Duration	1 year full-time
Course Director	Dr. Maximilian Schormair
Email	business.masters@tcd.ie
Closing Date	31st July 2026

This programme combines cutting-edge insights from business ethics, sustainability, as well as management and organisational science to educate students on how to meet the challenges of building a sustainable future for business and society. Through its research-driven and impact-oriented approach, the programme aims to enable future business leaders to harness the potential of business for responsible and sustainable value creation.

The programme offers 8 core modules and a dissertation that allows students to work on current challenges of responsible and sustainable business either in the form of an individual research dissertation or in small groups, as part of a student consulting project with a company, civil society or public sector organisation.

Career Opportunities

This programme enables students to pursue a career in management or leadership position with specific responsibilities for CSR, corporate sustainability, ESG, business and human rights, climate action in private sector companies (including consulting), civil society organisations & international public agencies.

Admission Requirements

Applicants are required to posses a minimum 2.1 Honours degree or equivalent. It is preferable, but not mandatory to have a degree in business, management or related fields such as Engineering, Natural Sciences, Political Science, Humanities.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Digital Arts and Intermedia Practices M.Phil.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Dr. Sven Anderson
Email	anderss@tcd.ie
Closing Date	30th June 2026

In the M.Phil. in Digital Arts and Intermedia Practices, students critically engage with emergent digital technologies and infrastructures through artistic research and practice.

Working across artistic disciplines, students examine diverse applications of AR and VR (augmented & virtual reality), AI (artificial intelligence), interactive design, game design, immersive environments, and urban media interventions. Students customise their programme with electives in performance studies, documentary film, and writing for computer games alongside core modules that draw from a variety of artistic fields.

The programme offers a space for students to probe fundamental questions related to the increasingly blurred territories between public and private space and notions of the self and the collective, and to explore new solutions to issues related to sustainability and social equity on both a local and a global scale.

Career Opportunities

This programme prepares students to develop professional artistic and curatorial practices and to pursue advanced research. Equally the programme equips students with the critical and technological skills to enter the creative industries through careers in digital media, interactive design, experience design, exhibition design, design consultancy, advertising, and marketing.

Admission Requirements

Applicants are required to possess a minimum 2.1 Honours degree or equivalent.

Applicants will be expected to submit a written statement in support of their application with examples of prior creative or academic work.

English Language Requirements

Playwriting M.F.A.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Gavin O'Donoghue (Director of Actor Training and Postgraduate Programmes)
Email	admissions@thelir.ie
Closing Date	31st March 2026

The theatrical landscape is constantly being moulded by theatre makers who are presenting original works or reimagining classics. Critical to this process is new writings and adaptations. The Master of Fine Art degree in Playwriting at The Lir Academy offers every student the opportunity to develop and hone their unique writing skill so that each play written is the best it can be.

Through a series of skills-based writing workshops and tutorials with professional playwrights, directors and a dramaturge, the individual voice of the student writer will be nurtured and developed. Classes in dramaturgy and contemporary theatre practice will supplement the training. The course will culminate in the writing of a full-length play for the stage. Excerpts of these final works are shared in a public event with an invited audience of industry professionals.

Career Opportunities

This course is designed to equip students of exceptional talent with the skills necessary to pursue a career in theatre and related industries through the development of skills, professional practices and creative approaches to writing for performance.

Admission Requirements

In addition to the online form, applicants must upload:

- a. A letter that outlines the applicant's theatre education and creative writing experience to date.
- b. A 'statement of purpose' outlining ambitions in terms of writing style, form and medium.
- c. A resume (CV).
- d. A sample of writing in the form of a play (minimum 45 minutes reading time).
- e. Two academic or creative references/testimonials.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements for their application to be considered for shortlisting to the programme. Visit the English Language Requirements page for more details.

Screen Studies M.Phil.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Dr. Jennifer O'Meara
Email	jennifer.omeara@tcd.ie
Closing Date	30th June 2026

The M.Phil. in Screen Studies at Trinity offers the opportunity to focus on a variety of areas: writing for different screens, studying historical and theoretical trends in screen media, and/or creating a range of film and media outputs.

The M.Phil. in Screen Studies allows students to develop the skills required to write successfully for and about a range of different screens in a critically informed and creative context, supported by the latest developments in media trends and digital content. In addition, the course aims to develop the key transferable skills required for postgraduate study. These include research preparation, time management, and oral and written presentation skills.

Career Opportunities

This course prepares students for a variety of careers including screenwriting, media production, and education. Our graduates have pursued careers in the film and television industry, digital media, advertising, marketing, and arts administration. Some of our graduates also go on to do further research at Doctoral level.

Admission Requirements

Applicants should have a good Honours Bachelor degree of upper-second class or above, or an equivalent qualification, in a cognate area. Applicants should upload either a creative writing sample (short story, screenplay, extract from a novel) or an academic writing sample (e.g. an essay from their undergraduate studies).

English Language Requirements

Stage Design M.F.A.

Trinity College Dublin The University of Dublin

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Gavin O'Donoghue (Director of Actor Training and Postgraduate Programmes)
Email	info@thelir.ie
Closing Date	31st March 2026

The MFA in Stage Design for Lighting Design, Costume Design and Set Design is a practical programme for professionals looking to explore their creativity and passion for stage design and specialise in their chosen field.

In addition to the core curriculum, the Course Director of Stage Design will offer individual and group tuition. In combination with masterclasses with visiting practitioners, students will also graduate with a strong awareness of the theatre industry.

Professional placements and observation of work in development are a key feature of the programme, and all students will showcase their work at the culmination of the course.

Career Opportunities

This programme allows students to specialise in or combine stage design disciplines (set and costume design, set and lighting design, etc.) and is tailored to provide talented individuals with the necessary skills to pursue a career in professional theatre and related industries.

Admission Requirements

In addition, to the information required on the online form, you are also required to upload a copy of the following:

- a. A Letter of application that outlines the applicant's theatre education and design experience to date.
- b. A 'statement of purpose' outlining the applicant's ambitions in terms of stage design.
- c. A portfolio of your work.
- d. Two references/testimonials; one from those familiar with your work and one from third-level education.
- e. A resume (CV).

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements for their application to be considered for shortlisting to the programme. Visit the English Language Requirements page for more details.

Theatre and Performance M.Phil.

Postgraduate Prospectus 2026

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Dr. Miranda Fay Thomas
Email	thomasmf@tcd.ie
Closing Date	30th June 2026

The M.Phil. in Theatre and Performance offers a dynamic fusion of theory and practice to nurture the development of future practitioners, researchers, innovators, and leaders of theatre and performance. Its rigorous taught programme is designed to strengthen students' analytic, critical, and practical approaches, with teaching occurring across lecture, small-group seminars/tutorials, and studio-based formats, as well as through one-on-one supervision of placements and independent projects.

Students will be taught by staff with international reputations in scholarship and performance, who have produced ground- breaking books and editions, awardwinning productions, and innovations in teaching theatre.

Career Opportunities

Graduates of this programme go on to a variety of careers in theatre or the arts more widely. Many now work as practitioners in the creative industries (playwrights, producers, performers, facilitators); others go onto further study at PhD level and begin careers in academia. Graduates are also eminently suited to fields such as publishing, broadcasting, or education.

Admission Requirements

Candidates should have a good Honours 1st class or 2.1 B.A. degree (minimum 'B', average 3.0 or above for North American students) or equivalent qualification. Applicants will be asked to submit writing samples and to interview before admission.

Theatre Directing M.F.A.

Trinity College Dublin The University of Dublin

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Gavin O'Donoghue (Director of Actor Training and Postgraduate Programmes)
Email	info@thelir.ie
Closing Date	31st March 2026

The Master of Fine Art in Theatre Directing programme is the first entirely practice-based masters programme of its kind in Ireland. It was introduced following extensive consultation with the Irish theatre community and is a direct response to the stated needs of the industry and of talented emerging artists.

Throughout the training, students will also develop an understanding of the skills of practitioners of theatre other than the theatre director, with a view to becoming proficient in and conversant with the creativity of others, and to enhance the craft of the student director by broadening their experience of theatre making.

Career Opportunities

This programme is tailored to provide talented individuals with the necessary skills to pursue a career in the professional theatre and related industries as a theatre director. Graduates may also pursue work as practitioners in the creative industries in other roles such as playwrights, producers, performers, artistic directors and facilitators.

Admission Requirements

Applicants are required to possess a minimum 2.1 Honours degree or equivalent.

In addition to the online form, applicants are also required to upload:

- **a.** Letter of application a letter outlining theatre education and theatre directing experience.
- **b. Statement of purpose** outlining the applicant's ambitions in terms of theatre directing.
- c. A portfolio of the applicant's theatre and directing work.
- **d. Critical assessment** a critical assessment of recently directed work.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements for their application to be considered for shortlisting to the programme. Visit the English Language Requirements page for more details.

Theatre Producing M.F.A.

1 year full-time / 2 years part-time Duration Gavin O'Donoghue (Director of Actor Training **Course Director** and Postgraduate Programmes) **Email** admissions@thelir.ie 31st March 2026 **Closing Date**

This MFA course, the first of its kind in Ireland, is a practice-based professional degree which aims to equip students of exceptional talent with the skills necessary to pursue a career in the professional theatre and related industries through the development of skills, professional practices and creative approaches to theatre producing. It encourages a self-reflexive approach to learning with a view to developing independent thinking and collaboratively-focused producers.

Career Opportunities

This MFA programme upskills and equips students to specialise in theatre producing. It is tailored to provide talented individuals with the necessary skills to pursue a career in the professional theatre and related industries. The Lir Academy MFA graduates are highly successful in their chosen fields and have gone on to work in major venues and institutions in Ireland and abroad.

Admission Requirements

Applicants are required to possess a minimum 2.1 Honours degree or equivalent.

In addition to the online form, you must upload:

- **a.** Letter of application—a letter outlining theatre education and theatre directing experience.
- **b. Statement of purpose**—outlining the applicant's ambitions in terms of theatre directing.
- c. A portfolio of the applicant's theatre and directing work.
- **d. Critical assessment**—a critical assessment of recently directed work.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements for their application to be considered for shortlisting to the programme. Visit the English Language Requirements page for more details.

Faculty of Arts, Humanities and Social Sciences

Education

Master in Education M.Ed.

Course Page Link →
Course Video Link →

Duration	1 year full-time / 2 or 3 years part-time
Course Director	Dr. Erika Caterina Piazzoli
Email	master.education@tcd.ie
Closing Date	30th June 2026 (except for Drama in Education and Music Education 31st May 2026)

This course is designed for those looking to engage deeply and critically with the field of education and allows you to tailor your studies to your unique interests through specialist and flexible open pathways. Whether taken full-time (1 year) or part-time (2–3 years), the M.Ed. focuses on educational research, theory and practice, with specialised modules that deepen your expertise in your areas of interest.

Career Opportunities

Our students develop a wide range of academic and transferable professional skills and an in-depth critical understanding of the field of education. This depth and range of development are of great benefit to them in their professional lives and our graduates are well placed to develop their careers further in exciting ways.

Admission Requirements

Applicants are normally expected to hold a good honour's degree (normally a 2.1 or equivalent). They should also have two academic referees (applicants with work experience can instead provide one academic and one professional referee). In order to complete the application, electronic copies of undergraduate degree transcripts and an up-to-date CV are required. Professional experience in the field of education is desirable.

Applicants to the 1-year Full-Time M.Ed. route must also submit an outline of their area of research interest (1–2 pages) as part of the application process.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Professional Masters in Education P.M.E.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	2 years full-time
Course Director	Dr. Gavin Murphy
Email	pme.admin@tcd.ie
Closing Date	As per the dates on the apply links

The Professional Masters of Education (PME) is a required qualification for those wishing to work as post-primary school teachers in the Republic of Ireland and a recognised teaching qualification within the EU. The course aims to prepare new entrants for the teaching profession who are subject experts in their chosen discipline, are knowledgeable, creative and reflective about the aims and processes of education and who are professional in all aspects of their work.

Admission Requirements

Applicants must be university graduates, with an 2.1 honours Bachelor's degree. The qualifying degree must be equivalent to at least Level 8 on the National Framework of Qualifications(NFQ). The qualifying degree must carry at least 180 ECTS (European Credit Transfer System) credits (or equivalent), and include, as a substantial component, (at least 60 ECTS credits), in at least one subject from the list of those taught at Leaving Certificate level in Ireland.

Applicants should be aware of specific entry criteria to the teaching profession which are set and regulated by the Department of Education and Skills in association with the Teaching Council of Ireland, and which must be satisfied independently of the School of Education's entry requirements. We shortlist and interview candidates on the basis of their degree award and their professional and life experiences.

Students will be required to undergo Garda Vetting, you can learn more here.

Children's Literature M.Phil. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time / 2 years part-time
Course Director	Dr. Padraic Whyte
Email	whytepa@tcd.ie
Closing Date	31st March 2026

This taught Master's programme in Children's
Literature encompasses everything from picturebooks
through to Young Adult fiction and runs on a full-time
(one year) or part-time (two years) basis. It examines the
complexities of children's texts; explores multiple genres,
readerships, publishing trends and modes of criticism;
pays particular attention to issues of diversity and inclusion;
and covers a huge body of English-language literature
from around the world, from four-hundred-year-old texts
to the latest publications.

This is a wonderful opportunity to spend a whole year (or two!) reading, researching, and debating children's literature at Trinity College, right in the heart of Dublin, a UNESCO City of Literature.

Career Opportunities

Throughout the programme, we will encourage students to immerse themselves in the literary communities of Trinity, of Dublin, and of the island Ireland; to network and connect with the multiple arts and cultural organisations in the city; to step inside the amazing libraries and archives on our doorstep; and to bring their expert knowledge of children's literature to the wider world.

Admission Requirements

Applicants should have a good honours degree (at least an upper second or a GPA of at least 3.3). A sample of the candidate's own critical writing (3,000–5,000 words) is also required.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Creative Writing M.Phil.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Dr. Kevin Power
Email	powerk9@tcd.ie
Closing Date	31st March 2026

The M.Phil. in Creative Writing programme is designed for students who are seriously committed to writing, are practising, or are prospective authors, and who wish to develop their writing within the framework of a university course and in the context of an Irish literary milieu. It involves the close and critical examination of the student's work in group workshops and under guided personal tuition. At Trinity you will also join a diverse, supportive and dynamic community of students, scholars, and writers in a world-leading English department right at the heart of one of the world's great literary cities.

Career Opportunities

Graduates have pursued careers in a range of areas including journalism, scriptwriting, copywriting, advertising, publishing, editing, the arts and culture sector, broadcasting, librarianship, education and research. Many alumni have also gone on to become successful writers.

Admission Requirements

Applicants are expected to hold a university degree or equivalent qualification (at least an upper second or equivalent, GPA of at least 3.3). In addition, applicants must submit a portfolio of selected recent creative work. The portfolio of sample work should include no more than 3000 words of prose (short stories, excerpt/s from a novel or drama) or 6–8 poems; genres may be combined but this is not a requirement.

English Language Requirements

Irish Writing M.Phil. / P.Grad.Dip.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director(s)	Dr. Sam Slote, Dr. Julie Bates
Email	slotes@tcd.ie
Closing Date	31st March 2026

The M.Phil. in Irish Writing explores Irish writing in English from the late seventeenth century to the present. Amid a diverse and dynamic community of students and scholars, this course will allow you to engage with a wide range of Irish writing in English, from canonical figures such as Maria Edgeworth and W.B. Yeats to contemporary critical debates around gender, sexuality, class and race.

Trinity boasts an extraordinary literary heritage, ranging from Jonathan Swift and Oscar Wilde to Eavan Boland and Anne Enright. It is situated in the heart of Dublin, a UNESCO City of Literature full of writers past and present, and containing a wealth of theatres, literary events and festivals, and cutting- edge magazines and publishers.

Career Opportunities

Graduates have gone into careers in education, the arts and culture sector, librarianship, publishing, journalism, broadcasting, public relations, social work, the civil service and management consultancy. Many alumni have also gone on to become successful writers.

This course also provides an excellent platform for moving on to doctoral research as well as offering transferable skills and careers in a variety of industries.

Admission Requirements

Applicants should have an honours Bachelor's degree (at least of upper-second class standard or GPA of 3.3) or equivalent qualification in a relevant subject (such as English, History, Art History, Irish Studies, or Modern Languages).

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Modern and Contemporary Literary Studies M.Phil. / P.Grad.Dip.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director(s)	Dr. Clare Clarke, Professor Darryl Jones
Email	clare.clarke@tcd.ie
Closing Date	31st March 2026

The study of literature is never just one thing. Modern literary culture is diverse, exciting, complex and rich. The M.Phil. in Modern and Contemporary Literary Studies grows out of and embraces this multiplicity. Here at Trinity, our School of English has internationally recognised strengths in national and international Anglophone literature, in canonical and popular literary forms, and in material literary culture and book history.

The course offers graduates in English and related disciplines the opportunity to explore more than two centuries of Anglophone writing and literary history. You will be introduced to key texts, authors and ideas from the nineteenth century through to the contemporary moment.

At Trinity, you will join a supportive and dynamic community of students, scholars, and writers in a world-leading English department right at the heart of one of the world's great literary cities.

Career Opportunities

Our postgraduates have gone into careers in education, the arts and culture sector, librarianship, publishing, journalism, broadcasting, public relations, social work, the civil service and management consultancy. Many alumni have also gone on to become successful writers.

Admission Requirements

Applicants should have an Honours Bachelor degree (at least of upper-second class standard or GPA of 3.3) or equivalent qualification in a relevant subject (such as English, History, Art History, Irish Studies, or Modern Languages).

Faculty of Arts, Humanities and Social Sciences

Histories and Humanities

Classics M.Phil. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration1 year full-time (EU and non-EU students) /
2 years part-time (EU/UK/EEA students only)Course DirectorDr. Shane WallaceEmailswallace@tcd.ieClosing Date30th April 2026

The M.Phil. in Classics is aimed both at students who intend to proceed to doctoral research and those who wish to round off their undergraduate studies by taking their encounter with the Classical world to the next level or to explore a nascent interest in ancient Greece and Rome.

This course provides students with an excellent grounding in postgraduate research skills in Classics. It also hones analytical, written, and verbal communication skills which are highly valued in careers outside the university and education sectors.

Career Opportunities

The M.Phil. in Classics helps graduates prepare for a wide variety of careers, including in the museum and heritage sectors, libraries and archives, public policy and administration, archaeology, law, teaching, and media. It also provides invaluable training in research for those planning to pursue doctoral studies and/or a career in research.

Admission Requirements

Applicants should normally have at least an upper second class (2.1) Honours Bachelors degree or equivalent (for example, GPA of 3.3) in a relevant area. Knowledge of Greek or Latin is not required, but students hoping later to pursue a research degree in fields where the written record provides our main sources will be strongly encouraged to acquire language skills in the course.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Early Modern History M.Phil. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Course Director(s)	Semester 1: Dr. Graeme Murdock Semester 2: Dr. Susan Flavin
Email	postgradhishum@tcd.ie
Closing Date	30th April 2026

The M.Phil. in Early Modern History introduces graduates to the political, social, cultural and religious history of Ireland, Britain and continental Europe across the Early Modern period. This one-year programme is designed to familiarise students with a wide range of issues in, and approaches to, Early Modern History while also providing students with a rigorous training in research methods and relevant skills.

The programme is built around Trinity College Library's unparalleled research resources for the period from the Reformation to the French Revolution and reflects the full range of exciting world-leading new research currently being undertaken in Early Modern history within the Department of History. The course may also serve as an introduction to graduate study for students intending to pursue doctoral studies in Early Modern History.

Career Opportunities

The M.Phil. helps prepare graduates for a wide variety of careers including in the museum and heritage sectors, libraries and archives, publishing, public policy and administration, teaching, media.

Admission Requirements

Applicants should normally have at least an upper second class (2.1) Honors Bachelors degree or equivalent (for example, GPA of 3.3) in history or a related discipline. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment.

Duration	1 year full-time (EU and non-EU students) / 2 years part-time (EU/UK/EEA students only)
Course Director	Dr. Diogo De Carvalho Cabral
Email	dcarvad@tcd.ie
Closing Date	30th April 2026

The M.Phil. in Environmental History gives students a firm understanding of the interplay of, and feedbacks between, nature and culture over time, allowing them to develop much-needed historical perspectives on the evolution of current environmental challenges.

Students will explore methods and themes that are directly relevant to the professional workplace at a time when there is an increasing awareness of the need to include the competencies and insights of the humanities in understanding and addressing environmental issues, not least climate change.

The course combines a strong methodological focus with an emphasis on interdisciplinary approaches and innovative assessment design.

Career Opportunities

The M.Phil. prepares graduates for a wide variety of careers, including in the museum and heritage sectors, libraries and archives, publishing, NGOs, public policy and administration, teaching, and media. It also provides invaluable research training for those planning to pursue a doctorate and/or career in research.

Admission Requirements

Relevant preparatory courses include NFQ Level 8-degree courses in the Humanities (History, Political Science, History of Ideas, Cultural Studies or similar) or the Natural Sciences (Environmental Sciences, Geography, Ecology, Biology or similar). Applicants should normally have at least an upper second- class (2.1) Honours Bachelor's degree or equivalent (for example, GPA of 3.3) in a relevant discipline or specialisation.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

History of Art and Architecture M.Phil. / P.Grad.Dip.

Course Page Link → Course Video Link →

Duration	1 year full-time (EU and non-EU students) / 2 years part-time (EU/UK/EEA students only)
Course Director	Dr. Anna McSweeney
Email	arthist@tcd.ie
Closing Date	30th April 2026

This course offers a distinctive programme founded on primary study of the outstanding collections on campus and nearby. The focus on both Irish and global art and architecture held in collections in Ireland provides students with a broad range of possible avenues for research.

Students will gain an understanding of best practices in art history through a series of modules designed to encourage sophisticated documentation and analysis of both works of art and architecture in Ireland and of the diverse range of approaches and methods current in the discipline.

Career Opportunities

The M.Phil. provides a strong foundation in art-historical skills, methodologies and approaches and helps prepare graduates for a wide variety of careers including in the gallery, museum and heritage sectors, libraries and archives, public policy and administration, teaching, media, public relations, publishing, and art practice.

Admission Requirements

Applicants should normally have at least an upper second class (2:1) Honours Bachelors degree or equivalent (for example, GPA of 3.3) in a relevant area. An undergraduate degree in art history is preferable but not essential. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment. In your application, we are interested to hear about why you want to study for this degree in Ireland, so read the course details carefully and reflect this in your submission.

English Language Requirements

International History M.Phil. / P.Grad.Dip.

Course Page Link → Course Video Link →

1 year full-time (EU and non-EU students) / **Duration** 2 years part-time (EU/UK/EEA students only) Dr. Molly Pucci **Course Director** puccim@tcd.ie **Email** 30th April 2026 **Closing Date**

The M.Phil. in International History offers students the chance to pursue historical research outside the bounds of the nation state. The programme allows students to immerse themselves in the questions of the past, develop research skills, study foreign languages, and become familiar with scholarship in the fields of transnational, comparative, and global history.

Students can choose courses from geographic specialties in modern history, including European, Irish, Chinese, US, and environmental history. Topics of interest could include the movement of culture, people, ideas, or trade across national borders, or issues such as imperialism, globalization, transnational social movements, and the history of war and conflict.

Career Opportunities

The M.Phil. helps prepare graduates for a wide variety of careers, including in the museum and heritage sectors, politics, libraries and archives, public policy and administration, teaching, and the media. It also provides invaluable training in research for those planning to pursue a doctorate and / or career in research.

Admission Requirements

Applicants are required to possess a minimum 2.1 Honours degree or equivalent.

Preferred applicants will have an undergraduate study background in history and interest in exploring the field of history from a diversity of national and international perspectives.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Medieval Studies M.Phil. / P.Grad.Dip.

Course Page Link → Course Video Link →

Duration	1 year full-time (EU and non-EU students) / 2 years part-time (EU/UK/EEA students only)
Course Director	Dr. Peter Crooks (Course Director and Coordinator of Culture and Civilisation Strand)
Email	pcrooks@tcd.ie
Closing Date	30th April 2026

Trinity's interdisciplinary Medieval Studies programme equips students with the critical skills needed for in-depth research on medieval texts, sources, and artefacts while allowing students to specialise in an approach aligned with their interests. The teaching takes full advantage of Trinity's world- leading holdings of medieval manuscripts and other artefacts, as well as those of other Dublin institutions and opportunities available for students to explore the built remains of medieval Ireland. The course offers students the choice of three strands: History, Language and Literature, and Culture and Civilisation.

Career Opportunities

The M.Phil. helps prepare graduates for a variety of careers, including in the museum and heritage sectors, libraries and archives, publishing, law, public policy and administration, archaeology, teaching, media. It also provides invaluable training in research for those planning to pursue a doctorate and/or career in research.

Admission Requirements

Applicants should normally have at least an upper second class (2.1) Honours Bachelor's degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment.

Closing Date	30th April 2026

The M.Phil. in Modern Irish History programme introduces well-qualified Humanities or Social Sciences graduates to research in modern Irish history, to the problems currently addressed by historians, and to the methods they apply to study of the subject. Drawing on the current interests of staff, the course is based on the rich resources of Trinity's library and of the adjacent Dublin libraries and archives. The course provides opportunities for in-depth study of selected issues in modern Irish history. It also serves as an introduction to students wishing to pursue doctoral studies.

Career Opportunities

Graduates have gone on to pursue doctoral studies, while others have embarked on further professional training as lawyers, teachers, librarians, counsellors and archivists. Some are now public servants, and others work in business/service industries.

Admission Requirements

Applicants should normally have at least an upper second class (2.1) Honours Bachelors degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment.

Public History and Cultural Heritage M.Phil. / P.Grad.Dip.

Course Page Link → Course Video Link →

Duration	1 year full-time (EU and non-EU students) / 2 years part-time (EU/UK/EEA students only)
Course Director	Dr. Georgina Laragy
Email	laragyg@tcd.ie
Closing Date	30th April 2026

The Public History and Cultural Heritage programme is designed to provide students with a rigorous grounding in public history and to prepare graduates in a unique fashion for the management of cultural heritage. We define 'public history' and 'cultural heritage' broadly. The course involves analysis of cultural memory, its construction, reception and loss; and study of the public status and consumption of history in modern society.

The course is taught in collaboration with Dublin's leading cultural institutions, and several organisations offer internships to students. In recent years participating bodies have included Dublin City Gallery; Dublin City Library and Archive; Glasnevin Trust: Hugh Lane Gallery; The Little Museum of Dublin; Marsh's Library; the National Gallery of Ireland; the National Library of Ireland; the National Museum of Ireland; and St Patrick's Cathedral.

Career Opportunities

The M.Phil. helps prepare graduates for a wide variety of careers including in the museum and heritage sectors, libraries and archives, public policy and administration, teaching, and the media.

Admission Requirements

Applicants should normally have at least an upper second class (2.1) Honours Bachelors degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment.

Women's Gender and Sexuality Studies M.Phil. / P.Grad.Dip.

Course Page Link →

Duration	1 year full-time
Course Director	Dr. Gillian Frank
Email	frankg@tcd.ie / postgradhishum@tcd.ie
Closing Date	30th April 2026

The M.Phil. in Women's Gender and Sexuality Studies exposes students to theories, methodologies, debates, and controversies that produce contemporary scholarship on women, gender and sexuality. Our course draws on insights and perspectives from the three disciplines in the School of Histories and Humanities: Classics, History, and History of Art and Architecture. As such, the course is both interdisciplinary and multidisciplinary, training students to research within and across these disciplines. Our students acquire a deep understanding of the historical and cultural contexts in which gender and sexuality are produced, performed and negotiated.

Career Opportunities

The programme helps prepare graduates for a wide variety of careers in the public and private sector. The course also hones the sort of analytical, written, and verbal communication skills that are highly valued and effective in a many different careers such as education, nonprofit/advocacy, health care, public health, law, business, social work, and civil service. It also provides invaluable training in research for those planning to pursue a doctorate and/or a career in research.

Admission Requirements

Applicants should normally have at least an upper second class (2.1) Honours Bachelors degree or equivalent (for example, GPA of 3.3) in a relevant area. Since places on the course are limited, applicants may be interviewed or asked to submit a writing sample for assessment.

Applied Intercultural Communications M.Phil.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

DurationM.Phil. 1 year full-time / 3 years part-time
P.Grad.Dip. 1 year full-time / 2 years part-time
P.Grad.Cert. 1 year part-timeCourse DirectorDr. Théophile MunyangeyoEmailpostgraduate.sllcs@tcd.ieClosing Date30th June 2026

The significance of the increase in global mobility is unquestionable. In many workplaces, cultural diversity is currently the norm. Intercultural communication plays an important role in the functioning of societies, organisations and in individual performance. However, whilst working in a culturally diverse environment makes interpersonal, social and professional interactions more interesting and exciting, cross-cultural communication comes with its challenges.

This course provides participants with novel perspectives and methods for effective intercultural communication at work, strategic and equitable partnerships, inclusive leadership and global engagement.

Career Opportunities

This course prepares graduates for communication, facilitation, international relations, leadership and/or Equality Equity Diversity and Inclusion (EEDI) roles in Creative Industries, Media and Publishing, Consultancy, Education, Government Agencies, Public Administration, Environmental and CleanTech Products and Services, Human Resources, Management and Business Administration, and Services.

Admission Requirements

- A minimum 2.1 Honours class degree from an Irish university or its international equivalent.
- Applicants must demonstrate their ability to write clearly and persuasively in an academic register (via the writing sample, described in the application site).
- Applicants will need to provide the names of two academic referees.

Please note that previous region-specific knowledge and additional foreign language skills are not required.

Closing Date	30th June 2026

Comparative Literature is an interdisciplinary field of study that allows you to explore the relationships between literature, culture, and history. It provides students with the opportunity to compare and contrast different perspectives and to gain a deeper understanding of how literature can shape and reflect the world around us. Comparative Literature can help you develop a critical eye, enabling you to make connections between texts and to think critically about how different works of literature can influence our understanding of the world.

Career Opportunities

Graduates have pursued careers in publishing, editing, project management, cultural outreach, research, as well as academia.

Admission Requirements

Applicants must hold a minimum 2.1 (upper-second class) Honours Bachelor's degree from an Irish university or its international equivalent in a relevant subject. Relevant subjects include but are not limited to the following: Languages, Literature, History, Cultural Studies, Comparative Literature, Human Geography, Sociology, Religious Studies, Gender Studies, Textual and Visual Studies, Visual Arts, Art History, Economics, Political Science.

Required Materials

Sample of Academic Writing (2,500 words max.); Degree Certificate(s); Degree Transcripts; Two Reference Letters.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band C (Higher Entry) English language requirements. Visit the English Language Requirements page for more details.

Many of the biggest questions in our world today can only be answered by drawing on knowledge of both culture and technology. Trinity's M.Phil. in Digital Humanities and Culture prepares its students to take on these questions in a wide variety of contexts, whether they want to deepen their understanding of a humanities subject through data mining and visualisation; explore the virtual transmission of culture and heritage by and beyond museums, libraries and archives; or join the movement to make technology development more humane.

Career Opportunities

This course prepares graduates for careers in project management, cultural outreach, NGO activities, exhibition creation, media and communications, data management, research, and humane technology management.

Admission Requirements

Applicants must:

- Have a good Honours degree (at least an upper second, GPA of at least 3.3) in any of the disciplines of the humanities, library, or computer science.
- Provide evidence of their motivation to join the course through their academic writing sample (2,500 words max.) and completed personal statement (found here).

Visit course page for further details.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band C (Higher Entry) English language requirements. Visit the English Language Requirements page for more details.

Applicants may also be asked to take part in a short interview (in person or via phone / Skype) as part of the assessment process.

Identities and Cultures of Europe M.Phil.

Trinity College Dublin The University of Dublin

Course Page Link → Course Video Link →

Duration	M.Phil. 1 year full-time / 3 years part-time P.Grad.Dip. 1 year full-time / 2 years part-time P.Grad.Cert. 1 year part-time
Course Director	Dr. Justin Doherty
Email	postgraduate.sllcs@tcd.ie
Closing Date	30th June 2026

Identities structure our reality, our desires, and our ideas. As such, they assume many shapes and forms: the self and the nation, language and gender, migration and trauma, myth and ideology, class and religion, capitalism and populism, ecology and technology. Above all, identities are crystallised in their representation: in the media and popular culture, in literature and film, but also in imagined communities and destinies, contested histories, and collective memory.

Career Opportunities

Recent graduates have secured careers via placement networks and pursued a wide range of opportunities in cultural outreach & policy, diplomacy, international & non-government organisations, journalism, project management, the creative & cultural industries, media & public relations, museum curation, and academia.

Admission Requirements

A minimum 2.1 (upper-second class) Honours Bachelors degree from an Irish university or its international equivalent in a relevant subject (Trinity uses ECCTIS for grade equivalency).

Required Materials

For this course, you will need to submit the following materials to apply:

- Personal statement form
- Sample of academic writing
- Degree certificate(s)
- Degree transcripts
- Two reference letters
- Completed online application form
- English Language Requirement

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band C (Higher Entry) English language requirements. Visit the English Language Requirements page for more details.

Literary Translation M.Phil.

Course Page Link → Course Video Link →

Duration	M.Phil. 1 year full-time / 3 years part-time P.Grad.Dip. 1 year full-time / 2 years part-time P.Grad.Cert. 1 year part-time
Course Director	Dr. James Hadley
Email	hadleyj@tcd.ie
Closing Date	30th June 2026

The M.Phil. in Literary Translation at Trinity College Dublin offers a dynamic blend of practice and theory. Based at the Trinity Centre for Literary and Cultural Translation, the course gives you direct access to the industry and the chance to build lasting professional networks.

While the word "literary" may suggest novels and poetry, we take a broader view: our students work with everything from comics and songs to video games, subtitles, and speeches. In today's world, creative forms of translation are more valued than ever-both in academia and across the cultural and creative industries.

In this course you'll build a personalised portfolio with the support of academic mentors, gain hands-on experience through team projects, and become confident in using the latest translation tools.

Career Opportunities

Throughout the year, we run workshops with industry partners and provide regular opportunities to network, collaborate, and build professional connections.

There's strong demand for skilled translators who can bring creativity and linguistic flair to their work-not only in literature, but also in international organisations, publishing, media, the public sector, and education. Our strong links with these sectors ensure that students engage with the real-world possibilities of literary translation from day one.

Admission Requirements

- A minimum 2.1 honours class degree from an Irish university or its international equivalent.
- A demonstrable working knowledge of two or more languages.

English language qualifications

Medieval Irish M.Phil.

Course Page Link → Course Video Link →

Duration	Students taking modules in Classical Modern Irish may study part-time over two years
Course Director	Dr. Mícheál Hoyne
Email	mhoyne@tcd.ie
Closing Date	30th June 2026

The M.Phil. in Medieval Irish aims to give you the knowledge of language, literature, metrics and palaeography you need to edit and translate a medieval Irish text from the original manuscripts.

Students focus either on the Early Irish period (600–1200) or the Classical Modern Irish period (1200–1650). It is not possible to take a combination of Early Irish and Classical Modern Irish modules. Modules in Classical Modern Irish are offered every year. Modules in Early Irish are offered in alternate years with the Diploma in Old Irish: MPhil modules in Early Irish will next be available in 2026/27.

Career Opportunities

This course prepares students to undertake independent research in an area of Medieval Irish. It may also be of interest to librarians, archivists and others who work with or have a passion for older Irish-language material.

Admission Requirements

All lectures will be conducted in English. Applicants for the MPhil must have a good Honours degree (2.1 or higher) in Irish or a cognate subject (e.g. History, Archaeology, Linguistics). To study Early Irish on the MPhil in Medieval Irish, a solid grounding in Old Irish is essential, as demonstrated by achieving 50% or higher in the Diploma in Old Irish or an equivalent qualification. A solid working knowledge of Modern Irish is essential.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Middle East in a Global Context M.Phil.

Course Page Link → Course Video Link →

Duration	M.Phil. 1 year full-time / 3 years part-time P.Grad.Dip. 1 year full-time / 2 years part-time P.Grad.Cert. 1 year part-time
Course Director	Professor Anne Fitzpatrick
Email	postgraduate.sllcs@tcd.ie
Closing Date	30th June 2026

The M.Phil. in Middle East in a Global Context is an online course in the study of the Middle East, its histories, cultures, politics, and language.

You will acquire cultural fluency and critical understanding vis-à-vis the cultures, societies and peoples of the Middle East and North Africa, analyse minority groups and identities in the region, and examine Islam and its cultures wherever they are to be found across the globe.

You will study Middle Eastern history from antiquity to the present, Arab intellectual history, and history of Western interventions in the region, especially from the 19th Century onwards.

Career Opportunities

This course will give you the cultural fluency and competence widely sought by employers, including in the fields of journalism, business, enterprise and industry, education, NGOs, political and diplomatic career pathways, international relations, and social policy making.

Admission Requirements

No prior languages knowledge is required, and Arabic can be studied ab initio. Applicants should normally have a second class (2.1) Honours Bachelors degree or equivalent. Applicants are asked to submit a writing sample for assessment, and may be invited for online interviews.

Faculty of Arts, Humanities and Social Sciences

Linguistic, Speech and Communication Sciences

Applied Linguistics M.Phil. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration1 year full-time / 2 years part-timeCourse DirectorDr. Elaine Uí DhonnchadhaEmailclcs_mphil_info@tcd.ieClosing Date30th June 2026

The discipline of applied linguistics investigates a range of issues around language in contemporary society. Among these, the most prominent issues are those surrounding second and foreign language education. It is often said that globalisation has made the learning of additional languages an essential goal in education but language learning has been important in most places at most times.

There are two central strands in the applied linguistics of language teaching and learning. One, usually called second language acquisition, investigates the psychology of language learning, while the other, second language pedagogy, focuses on instruction at various different scales. Given this educational focus, applied linguistics draws not only on linguistics, but also on educational psychology, educational philosophy, social psychology, and cognitive psychology, among other disciplines.

Career Opportunities

Graduates from this programme have followed various career paths in language education and other language professions, in a variety of roles such as linguistics researcher, interpreter, business consultant and language programme manager.

Admission Requirements

Applicants should have a good honours degree (at least an upper second or equivalent; GPA of at least 3.2). Previous knowledge of applied linguistics is not a requirement. Normally only graduates with language teaching experience are admitted to the course in Applied Linguistics.

Applicants must provide a Personal Statement explaining their motivation in applying for their chosen course(s).

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band C (Higher Entry) English language requirements. Visit the English Language Requirements page for more details.

Chinese Studies M.Phil. / P.Grad.Dip.

Duration

1 year full-time / 2 years part-time Professor Nathan Hill

Course Page Link →

Course Video Link →

Course DirectorProfessor Nathan HillEmailclcs_mphil_info@tcd.ieClosing Date31st July 2026

Chinese Studies is a multidisciplinary field of study, drawing upon and integrating disciplines such as History, Linguistics, Politics, Cultural Studies and Translation Studies.

The M.Phil. programme offers the opportunity to engage with key aspects of contemporary China, including its political and economic landscape, modern history, society, popular culture and language. Given China's economic impact and international reach, this course equips its graduates to engage deeply with contemporary China.

Delivered by expert faculty as well as regular guest speakers from business and industry, this programme will develop the skills necessary to succeed in an international environment.

Career Opportunities

Our graduates are in high demand and have pursued a wide range of careers including in business and industry, communications, public affairs, diplomacy, and arts and heritage, at the UN, at multinational corporations, and in local government. Graduates have also pursued further academic research.

Admission Requirements

Applicants will hold a Bachelors degree (minimum 2.1, or a GPA of 3.5, or equivalent from another country) from a recognised university. A background in Arts, Humanities and Social Sciences is helpful but not a requirement. Applicants must submit a personal statement (circa 500 words) that describes their background and the nature of their interest in the course.

The M.Phil. in Chinese Studies doesn't require any specific prior knowledge of Chinese history, culture, or language.

English Language Requirements

Clinical Speech and Language Studies M.Sc.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Dr. Ciarán Kenny
Email	cslssec@tcd.ie
Closing Date	30th April 2026

The aims of the course are to provide qualified Speech and Language Therapists with opportunities to advance their academic knowledge and professional practice skills within Dysphagia or Voice.

Graduates will demonstrate excellence in clinical practice through extending and enhancing their existing theoretical knowledge base with a critical awareness of new insights and developments within their chosen clinical specialist area. Students will also be able to design and implement, with a degree of autonomy, and with due regard to ethical considerations, small-scale research studies in their chosen area.

Career Opportunities

Graduates have gone on to become expert clinicians in their field and to administer clinical practices. Other graduates have also continued to run research studies in their chosen clinical specialist area and pursued further education and academic research, such as a PhD.

Admission Requirements

Applicants should hold at least 2.1 Honours degree in Clinical Speech and Language Studies or an equivalent qualification in Speech and Language Therapy. Those without a qualification in Speech and Language Therapy/Speech-Language Pathology should not apply.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

English Language Teaching M.Phil. / P.Grad.Dip.

Course Page Link →

Duration	1 year full-time / 2 years part-time
Course Director	Dr. Elaine Uí Dhonnchadha
Email	clcs_mphil_info@tcd.ie
Closing Date	30th June 2026

The M.Phil. in English Language Teaching (ELT) incorporates academic, research and practical elements within its structure. It supports an integrated approach to English language teaching that balances theory with practice. The course will give practicing teachers the opportunity to explore current issues in ELT, and to deepen their understanding of the theoretical and practical concerns that underlie their teaching in TESOL and other settings.

The M.Phil. in English Language Teaching programme benefits in particular from CLCS's involvement in the development and implementation of two Council of Europe tools that are important in the current debate about language learning, teaching and assessment world-wide: the Common European Framework of Reference for Languages and the European Language Portfolio. These tools are relevant in English language teaching environments, including TESOL environments.

Career Opportunities

Aimed at both new and experienced teachers of English as a foreign or second language, this course supports an integrated approach to English language teaching that balances theory with practice and enhances teachers' career options.

Admission Requirements

Applicants should have a good honours degree (at least an upper second or equivalent; GPA of at least 3.2). Experience of English language teaching is desirable but not essential. Preference is given to applicants with relevant teaching experience.

Applicants must provide a Personal Statement explaining their motivation in applying for their chosen course(s).

English Language Requirements

Linguistics M.Phil. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time / 2 years part-time
Course Director	Dr. Elaine Uí Dhonnchadha
Email	clcs_mphil_info@tcd.ie
Closing Date	30th June 2026

Linguistics is the systematic study of human language. It has its roots in antiquity, though the twentieth century saw an explosion of research and the development of new theories and approaches. Linguistics has become an exciting and vigorous area of study, with strong connections to many fields including psychology, sociology, anthropology, cognitive science, computer science, and philosophy.

Language is complex, and linguistics attempts to describe and explain the full range of that complexity, especially speech sounds, the grammar of words and sentences, and how meaning relates to words, grammar and context.

The M.Phil. in Linguistics has been running for nearly 30 years, offering a leading programme you can tailor to your interests; flexible design shaped by your interests in Linguistics; small class size, taught by experts; and a wide choice of elective modules offered each year.

Career Opportunities

Our alumni have followed career paths in various professions, with many opting to pursue research at a higher level. For some, PhD research has led to an academic career.

Admission Requirements

Applicants should have a good honours degree (at least an upper second or equivalent; GPA of at least 3.2). Previous knowledge of linguistics is not a requirement.

Applicants must provide a Personal Statement explaining their motivation in applying for their chosen course(s).

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band C (Higher Entry) English language requirements. <u>Visit the English Language</u> Requirements page for more details.

Speech and Language Processing M.Phil. / P.Grad.Dip.

Postgraduate Prospectus 2026

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time / 2 years part-time
Course Director	Dr. Elaine Uí Dhonnchadha
Email	clcs_mphil_info@tcd.ie
Closing Date	30th June 2026

Speech and language processing examines language from two distinct perspectives. Speech processing deals with the science of spoken communication, how speech is encoded by the speaker and decoded by the listener. It is also concerned with the processing techniques used to model speech in ways that can potentially be implemented in technology, such as speech synthesis.

Language processing, in parallel, involves computational aspects of linguistics. It addresses theories of grammar and meaning, and provides access to the fundamentals of linguistics, both as a science and as an engineering discipline. As an engineering discipline it is concerned with technology applications and tools that exploit linguistic knowledge, such as predictive text, automated personal assistants, web search etc.

Career Opportunities

Our alumni have followed various career paths, with many opting to pursue research at a higher level through the PhD in CLCS (e.g. becoming involved in research projects in the Phonetics and Speech Lab), with the computational linguists in TCD's School of Computer Science and Statistics, and in other leading institutions across the globe.

Admission Requirements

Applicants should have a good honours degree (at least an upper second or equivalent; GPA of at least 3.2).

Applicants must provide a Personal Statement explaining their motivation in applying for their chosen course(s).

Postgraduate Prospectus 2026

Faculty of Arts, Humanities and Social Sciences

Law

Intellectual Property and Information Technology Law LL.M.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Dr. Desmond Ryan
Email	law.postgraduate@tcd.ie
Closing Date	31st May 2026

The tensions between rewarding intellectual development, on the one hand, and incentivising further developments, on the other, are most acute in the context of technological advance. Such issues arise in the context of information technology law more generally, where the rapid emergence of new technologies raises questions of how, if at all, the law should respond to, regulate, and promote such developments.

Intellectual Property and Information Technology have become significant and growing areas of law at both a European and an international level. The Law School offers an innovative LL.M. in Intellectual Property and Information Technology Law. This Masters programme seeks to promote critical analysis of, and reflection on, different aspects of national, European and international intellectual property and information technology law.

Career Opportunities

The School of Law at Trinity College Dublin is a strategic partner of the 'Pan-European Seal' Professional Traineeship Program. Students of the LL.M. can apply to take part in this paid traineeship with the European Intellectual Property Office (EUIPO) and the European Patent Office (EPO). Click this link to learn more about this incredible opportunity.

Admission Requirements

Applications are invited from graduates who hold an Honours Bachelors degree in law or in a law-based interdisciplinary programme. Applications may also be considered from exceptional graduates in disciplines relevant to the LL.M degree or applicants with significant professional experience in Law.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

International and Comparative Law LL.M.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Dr. Desmond Ryan
Email	law.postgraduate@tcd.ie
Closing Date	31st May 2026

In an era of globalisation, it is no longer possible to understand law in a purely national context. Once the domain of foreign ministries, international law has dramatically expanded in its scope, reaching deep within national legal systems and covering organisations, businesses and individuals.

The LL.M. programme in International and Comparative Law offers students a unique platform to develop this understanding. The programme offers a rich and diverse array of modules taught by expert scholars and practitioners in the fields of international and comparative law.

Career Opportunities

This programme equips students with the expertise, skills and attributes which are valuable across a wide range of careers, both within and beyond the legal profession, nationally and internationally.

Admission Requirements

Applications are invited from well-qualified graduates who hold a very good Honours Bachelor degree in law or in a law-based interdisciplinary programme. Applications may also be considered from exceptional graduates in disciplines relevant to the LL.M degree they are applying for if: a substantial component of their undergraduate degree(s) is in Law; or they have significant professional legal experience.

We advise students to apply for the course as early as possible as admission is competitive. The programme is subject to early closure.

English Language Requirements

International and European Business Law LL.M.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Dr. Desmond Ryan
Email	law.postgraduate@tcd.ie
Closing Date	31st May 2026

In a global economy where companies of all sizes seek to expand beyond domestic borders and penetrate new markets, building an awareness of the legal environment in which these companies operate requires us to look beyond our national laws to grasp the cross-border context in which legal issues arise in business life.

The LL.M. in International and European Business Law offers a comprehensive list of modules exploring the complex legal issues surrounding international business, commercial and financial services law. Academic staff engage in research-led teaching and the modules allow graduates to develop their knowledge and expertise throughout their studies.

Career Opportunities

This programme equips students with expertise, skills and attributes which are valuable for graduates preparing to work in busy international commercial firms, legal practice or in the public and private financial sectors across the globe.

Admission Requirements

Applications are invited from well-qualified graduates who hold an Honours Bachelors degree in law or in a law-based interdisciplinary programme. Applications may also be considered from exceptional graduates in disciplines relevant to the LL.M degree or applicants with significant professional experience in Law.

We advise students to apply for the course as early as possible. The programme is subject to early closure.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Law and Finance M.Sc.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director(s)	Dr. Felix Mezzanotte (School of Law), Dr. Jenny Berrill (Trinity Business School)
Email	law.postgraduate@tcd.ie
Closing Date	31st May 2026

This interdisciplinary Masters programme is jointly offered by the School of Law and Trinity Business School. The programme is structured to include foundational and advanced material to build students' knowledge and understanding of law and finance. It will provide you with the capacity to embrace current and future changes in fields such as financial investing, business ethics, law and financial innovation as well as law, sustainability and finance. You will develop a deep understanding of financial and legal concepts in addition to undertaking technical analysis and applications.

Career Opportunities

The M.Sc. in Law and Finance will ensure that graduates are particularly well placed to tackle business challenges with an understanding of both the legal and financial aspects, which is crucially important to organisations operating in an increasingly dynamic and complex world.

Admission Requirements

An undergraduate honours Bachelor's degree of 2.1 grade or higher in Business, Economics or Law. Admission to this highly-subscribed programme is at the absolute discretion of the review panel, who will decide on admissions with regard to a range of academic criteria, including the quality of the individual application and the objectives of ensuring a diverse class of the highest possible academic calibre.

We advise students to apply for the course as early as possible as admission is competitive. The programme is subject to early closure.

Closing Date	31st May 2026

Our flagship LL.M. programme also known as LL.M. (General) offers students the opportunity for postgraduate study where they can select modules from a substantial list of modules covering the disparate branches of law. Students can focus on public law or private law modules or may take a selection of both. The programme encourages independent learning and innovative thinking in a supportive academic community and attracts students from around the world. It will enable students to develop the skills to use appropriate legal theories, doctrines and concepts to identify, formulate, analyse and solve legal problems within national and international contexts and identify, evaluate and synthesise jurisprudential theories and concepts at a level appropriate to master's graduates.

Career Opportunities

This programme broadens and deepens students' knowledge of the law, further developing their research skills and significantly enhancing their career prospects both within the legal profession and elsewhere.

Admission Requirements

Applications are invited from well-qualified graduates who hold a very good Honours Bachelor degree in law or in a law-based interdisciplinary programme. Applications may also be considered from exceptional graduates in disciplines relevant to the LL.M degree they are applying for where: a substantial component of their undergraduate degree(s) is in Law; or applicants have significant professional experience in Law.

We advise students to apply for the course early as admission is competitive. The programme is subject to early closure.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Applied Behaviour Analysis M.Sc.

Course Page Link →
Course Video Link →

Duration	2 years full-time
Course Director(s)	Year 1: Associate Professor Olive Healy Year 2: Associate Professor Maeve Bracken
Email	msc.aba@tcd.ie
Closing Date	30th April 2026

The M.Sc. in Applied Behaviour Analysis (ABA) is an intensive full-time course which aims to ensure that students become efficient in the practical application of the principles of applied behaviour analysis. The course provides theoretical, ethical, practical, and basic modules that involve face-to-face classes presented by qualified staff with expertise in Behaviour Analysis. Theory and practice are interwoven throughout the course.

Class time includes lectures, interactive sessions, seminars, and group work. Students are required to actively engage in the content and process through discussion and demonstration, including reference to their own work experiences to integrate theory and practice.

Career Opportunities

Graduates will be able to work in educational and clinical settings serving diverse populations, such as students with learning difficulties, persons with autism and other developmental disabilities and/or children and adolescents in care or special programmes, and/or those clients presenting learning and/or behavioural challenges in school.

Admission Requirements

Applicants will normally be required to hold a 2.1 Honours degree in Psychology or a related field from a recognised third-level institution. Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

Applied Psychology M.Sc.

Course Page Link →
Course Video Link →

Duration	1 year full-time
Course Director	Dr. Tim Trimble
Email	msc.appliedpsych@tcd.ie
Closing Date	31st March 2026

The M.Sc. in Applied Psychology is designed to provide students with a general awareness of the problems of applying psychology, a knowledge of skills required to apply it effectively and a detailed understanding of their chosen focus of application. The themes of analysis, intervention, and evaluation are central to the course structure and philosophy.

The core modules provide training in research methods and professional issues. Optional modules enable the further development of these competencies and knowledge while enabling students to consider their application in specified content areas through the study of applied modules and an extended piece of empirical research.

Career Opportunities

This course will enable students to develop the knowledge, skills and attitudes necessary for further clinical training, or a career in clinical research or further academic research. Our programmes also deliver training that will enhance your opportunities to gain employment as a counsellor, developmental psychologist and educational psychologist, among many other psychology-related careers.

Admission Requirements

Applicants will be required to hold at least a minimum of an upper second- class Honours degree (2.1) in psychology or its equivalent from a recognised university course, which confers eligibility for graduate registration with the Psychological Society of Ireland or equivalent professional body in the case of overseas applicants.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Clinical Psychology D.Clin.Psych.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	3 years full-time
Course Director	Dr. Kevin Tierney
Email	dclinpsych@tcd.ie
Closing Date	17th November 2025

Within three years, the course provides an intensive and systematic programme of training, equipping each student to meet the challenges facing clinical psychology and to make a unique contribution to the Irish Health Services. A core value in the course is the emphasis on linking theory and practice, informed by the reflective scientist practitioner philosophy of integrated training in research methods, academic knowledge and clinical experience.

The course holds P.S.I. Accreditation.

Career Opportunities

The course aims to train students so that they will be equipped to function as independent career-grade clinical psychologists in the Irish health service under appropriate supervision. A number of graduates also go on to further clinical research.

Admission Requirements

At least an upper-second class Honors Bachelor degree in psychology which confers eligibility for graduate membership of the Psychological Society of Ireland will be required.

A candidate's demonstrated interest in the field of clinical psychology and research competence will also be taken into account.

Students will be required to undergo Garda Vetting, you can learn more here.

For a full list of admission requirements visit the Course Page.

Counselling Psychology D.Couns.Psych.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	3 years full-time
Course Director	Dr. Ladislav Timulak
Email	dcounspsych@tcd.ie
Closing Date	31st January 2026

The intensive Counselling Psychology programme provides professional training in Counselling Psychology and is accredited by the Psychological Society of Ireland.

The course emphasises the scientist-practitioner model and research-informed practice. The scientist-practitioner model is fostered through research classes and work on the research dissertation. Students are informed on a variety of research strategies (including e.g. experimental as well as descriptive and qualitative, phenomenological, hermeneutic, discourse analytic and grounded theory approaches) and learn to critically evaluate the strengths and weaknesses of different methodologies.

Career Opportunities

Graduates of this course are qualified counselling psychologists, skilled to conduct mental health assessments and therapy with individuals, couples, families and groups across the lifespan. Graduates have pursued careers as counselling psychologists in a variety of settings and have been employed by Health Service Executive, within the National Counselling Service, Refugee and Asylum Seekers Service, Autism Services;

Voluntary agencies; Hospitals; Third level student counselling services; Private practice and multiple other locations.

Admission Requirements

Applicants will be required to hold at least a minimum of an upper second class honours degree (2.1) in psychology or its equivalent from a recognised university course, which confers eligibility for graduate registration with the Psychological Society of Ireland or equivalent professional body in the case of overseas applicants.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Psychoanalytic Studies M.Phil. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Dr. John O'Connor
Email	psychoanalysis@tcd.ie
Closing Date	31st March 2026

The Masters in Philosophy in Psychoanalytic Studies offers graduates a thorough introduction to the history, theory and applications in clinical work and in the wider culture of psychoanalysis from Freud to modern writers in this broad field. The course is of interest to people from a variety of backgrounds, including graduates of psychology, philosophy, and other university programmes, as well mental health professionals, people who work in the fields of the Arts, education and health, among others. The programme attracts students from around the world and from a wide mix of backgrounds and age groups.

Is This Course for Me?

The course is designed for students with a degree in an appropriate Arts, Social Sciences or Science subject or other subject which provides some basis for this course who would like to progress their careers and clinical work and acquire professional knowledge and skills in psychoanalysis.

Career Opportunities

Graduates have pursued careers in counselling, social work, marriage and family therapy, psychiatric nursing, and consultancy. A number of graduates also go on to further research and a career in academia.

Admission Requirements

Applications are normally accepted only from persons with a first or upper second-class degree (2.1) in an appropriate Arts, Social Sciences or Science subject.

Psychology H.Dip. Psychology Conversion Course

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	2 years full-time
Course Director	Dr. Jean Quigley
Email	psychconv@tcd.ie
Closing Date	31st March 2026

The Psychology Conversion Course is designed to provide a pre-professional qualification equivalent to a bachelor's degree in psychology. The course is accredited by the Psychological Society of Ireland (PSI) and allows students proceed to postgraduate education, including higher degrees by research, and to specialise in an area of professional psychology.

The course aims to provide an understanding of the nature of psychology as a profession, the psychologist's professional responsibilities, standards of performance and ethical issues; to enable students to acquire advanced knowledge in relevant areas within psychology, to extend skills in formulating research problems, gathering and analysing data, interpreting and communicating research findings; and to help students explore their own interests and capacities in the field and to prepare them for further training.

Career Opportunities

This course provides a rigorous and comprehensive primary training to prepare students to take the next step towards a career in or using psychology.

Admission Requirements

Candidates for admission to the Higher Diploma in Psychology must hold a primary degree, in any discipline with at least an upper second-class Honours degree.

Students will be required to undergo Garda Vetting, you can learn more at: www.tcd.ie/students/orientation/undergraduates/garda-vetting.php

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Christian Theology M.Phil. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time / 2 years part-time
Course Director	Professor Michael Kirwan
Email	srpostgrad@tcd.ie
Closing Date	31st July 2026

The M.Phil. in Christian Theology enables participants to gain an in-depth knowledge of core issues in contemporary Christian theology. Whether your background is as a graduate in theology or other related disciplines, the course offers a structured programme of study at an advanced level.

Students are introduced to historical scholarship and to rigorous contemporary theological investigation. A written dissertation is a key part of the course. This enables participants to engage in advanced study of a particular topic of interest in the field. In the process of writing, participants are offered one-to-one academic supervision.

Career Opportunities

For teachers of religious education, this course provides an excellent opportunity to explore theological issues at a deeper level, so benefiting them and their students. While the M.Phil. is designed to be complete in itself, it can serve as preparation for those waiting to proceed to further research in the field.

Admission Requirements

Applicants should normally have an upper second-class Honours Bachelor's degree, or 3.2 GPA (or above). Applicants not meeting these requirements may be considered at the discretion of the Dean of Graduate Studies.

English Language Requirements

Closing Date	31st July 2026

Based in Belfast, Northern Ireland, the M.Phil. in Conflict Resolution and Reconciliation reflects the School and Trinity's commitment to cross-border education. It offers an inter-disciplinary approach to the challenges of political and social reconciliation in the aftermath of violent conflict.

This course offers students academic and theoretical insight into conflict resolution and reconciliation, as well as practical skills and experience through placements and workshops. Students have the opportunity to engage with community-based actors and organisations involved at grassroots level in the process of conflict transformation and social justice.

Belfast is a vibrant city, undergoing an exciting post-conflict transformation. The city provides a unique backdrop for this M.Phil., allowing students to immerse themselves in a society grappling with the challenges of, and opportunities for, conflict transformation.

Career Opportunities

Our graduates find employment in a wide range of careers, such as conflict resolution and mediation, peacebuilding, human rights, international development, NGOs and the non-profit sector, advocacy and activism, the public sector and government, diplomacy, the United Nations and international organisations, research, teaching, journalism, academia and law.

Admission Requirements

Applicants should normally have an Honours degree at second-class level or GPA 3.2 or above. Students not meeting these criteria may be considered at the discretion of the Dean of Graduate Studies.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. <u>Visit the English Language</u> Requirements page for more details.

Contextual Theologies and Interfaith Relations M.Phil. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time / 2 years part-time
Course Director	Professor Gillian Wylie
Email	srpostgrad@tcd.ie
Closing Date	31st July 2026

The M.Phil. in Contextual Theologies and Interfaith Relations is an interdisciplinary course that explores the inherent contextuality and pluralism of theological reflection, and especially their implications for inter and intra-faith relations. 'Faith' here is understood broadly, drawing from a wide range of religions and spiritualities, some traditional and institutionally structured, others more experimental and experiential.

Students attend to the practical and theoretical possibilities of engaging—in depth and in context—with the challenging theological praxis of justice, peace and the integrity of creation. By offering a wide range of critically reflective faith perspectives from the Americas, Asia, Africa, Europe and the Middle East, this master's programme blends together the themes of liberation theologies, with those of ecumenical and interfaith dialogue.

Career Opportunities

Graduates of this course can go on to further education and academic research. Graduates will learn research skills, as well as analytic, written, and verbal communication skills that are highly valued and effective in a great variety of careers.

Admission Requirements

Applicants should normally have an Honours degree at second-class level, or GPA 3.2 (or above). Students not meeting these criteria may be considered at the discretion of the Dean of Graduate Studies under exceptional circumstances.

English Language Requirements

International Peace Studies M.Phil. (Peace Studies) / P.Grad.Dip.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Professor Etain Tannam
Email	srpostgrad@tcd.ie
Closing Date	31st July 2026

International Peace Studies students are immersed in an interdisciplinary, cutting-edge course of study that examines the causes and consequences of war and armed conflict, with a view to understand how to achieve sustainable peace. Lecturers draw on interdisciplinary perspectives from politics and political science, international relations, philosophy, sociology, ethics, and conflict resolution.

The course provides students with the opportunity to engage with those working in conflict resolution and peace-building, by providing an internship module, field trips to Belfast and UN Geneva, and various guest lectures from experienced diplomats and NGO officials throughout the year.

Career Opportunities

Our graduates find employment in a range of careers, such as: conflict resolution and mediation, peacebuilding, human rights, international development, NGOs and the non-profit sector, advocacy and activism, the public sector and government, diplomacy, the United Nations and international organisations, research, teaching, journalism, academia and law.

Admission Requirements

Applicants should normally have an Honours degree at second-class (2.1) level or GPA 3.2 (or above). Students not meeting these criteria may be considered at the discretion of the Dean of Graduate Studies in exceptional circumstances.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Theology and Social Justice M.Phil. / P.Grad.Dip.

Course Page Link →

Duration	1 year full-time / 2 years part-time
Course Director	Professor Siobhán Garrigan
Email	srpostgrad@tcd.ie
Closing Date	31st July 2026

Studying social justice in tandem with theology offers students a unique insight into how religious ideas shape and are shaped by the concrete social realities of the modern world. This course aims to combat poverty, climate change, racism, homelessness, misogyny, homophobia, sexism, ableism, ageism, and religious discrimination. Our premise is that where theology meets justice, hope meets action.

Career Opportunities

Students go on to work in: Non-Governmental Organisations, government—civil service, churches and other faith-based organisations, journalism and broadcasting, education, the arts and creative industries, advocacy groups and campaigns, research, non-profit organisations/charities.

For further information about career opportunities, watch the video here.

Admission Requirements

Admission to this course is at graduate level. Applicants will normally hold a good honours degree (minimum 2.1 or equivalent) in theology from a recognized university.

Applicants who have a primary degree in other disciplines will be considered.

Exceptional cases, where applicants do not fully meet the above criteria, but make a reasonable case for admissions otherwise, will be considered by the Dean of Graduate Studies.

Faculty of Arts, Humanities and Social Sciences

Social Sciences and Philosophy

Applied Social Data Science M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director(s)	Dr. Jeffrey Ziegler, Dr. Tom Paskhalis
Email	msc.asds@tcd.ie
Closing Date	31st July 2026

Both the M.Sc. and P.Grad.Dip. are one-year, full-time programmes which introduce students to fundamentals in quantitative social science research methods and state-of-the-art analytic approaches from the fields of statistics and machine learning. Graduates of the course will acquire a rich repertoire of social scientific research design skills grounded in the scientific method and data analytic methods that are widely sought after in the private, public, and non-profit sectors.

Career Opportunities

A unique trait of the M.Sc. in Applied Social Data Science programme is that it combines rigorous training in methods from computer science and statistics with social science research skills. There is high demand for social scientists who can apply machine learning and statistical methods for data- driven solutions to challenges faced by governments, political groups, and civil society organisations.

Admission Requirements

- Admission to the course is competitive. Applicants will be expected to hold an upper second class honours
 (2:1) degree or higher from an established university.
 A background in a social science discipline or computer science, statistics, or other related discipline will be an advantage but is not required. Applications are expected from candidates who wish to acquire practical knowledge in using cutting-edge statistical methods to answer social scientific questions.
- GPA scores of at least 3.3 out of 4, or equivalent, will be expected from international applicants.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Comparative Social Change M.Sc.

Course Page Link →
Course Video Link →

Duration	1 year full-time
Course Director	Professor Daniel Faas
Email	daniel.faas@tcd.ie
Closing Date	31st July 2026

This M.Sc. in Comparative Social Change is offered jointly by the Department of Sociology at Trinity and the School of Sociology at University College Dublin to develop students' knowledge of the main currents of social change today, the social, cultural and economic forces which are driving them and the different forms they take across states.

The course has a significant international dimension drawing on the rich and informative experiences of other EU member states, North America, the four Asian Tigers, plus the BRIC countries, particularly Brazil, China and India.

It provides students with both the theoretical frameworks and practical research skills necessary to understand the processes and pressing issues presented by global social change. It aims to show students how everyday experience and practices are shaped by broader social and economic processes.

Career Opportunities

Students receive academic training in social change issues, such as gender, education and the labour market, which can be applied to real-world problems. This training has the potential to open career opportunities in fields such as advocacy, the media and communications. Furthermore, policy-relevant and practice-based components, such as fieldwork projects, have been designed to contribute to the training and employability of the next generation of researchers, adding an extra dimension to the M.Sc. programme.

Students also learn valuable writing, communication, problem solving and policy assessment skills which can be applied to a wide range of careers and further postgraduate study.

English Language Requirements

Postgraduate Prospectus 2026

Economics M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time / 2 years part-time
Course Director	Martina Kirchberger
Email	economics@tcd.ie
Closing Date	31st July 2026

The M.Sc. in Economics focuses on the technical skills needed to undertake economic research and emphasises active and problem-based learning to ensure mastery of the required skills.

The course has two strands. The first is a general entry strand and the second is a strand that focuses on International Development. While the required mix of modules varies across the two, the structure and timing of both is the same and both lead to an M.Sc. qualification.

A number of scholarships may be awarded annually to highly qualified candidates.

Career Opportunities

A significant number of our students have gone on to study for a PhD at leading universities around the world such as Boston University, Duke University, New York University, Oxford, LSE, UCL, University of Queensland, Stanford University and Trinity College Dublin. Our graduates are also highly sought after by private sector employers, for example in banking, finance and consulting.

Many of our graduates also go on to pursue successful careers in government, multinational organisations, think tanks and NGOs that value the analytical and problem-solving skills our graduates possess.

Admission Requirements

Candidates should normally hold at least an upper second-class Honours degree that has a significant quantitative component, most commonly Single or Joint Honours degrees in Economics.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

International Politics M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time / 2 years part-time
Course Director	Dr. Matthias Dilling
Email	polgrad@tcd.ie
Closing Date	30th June 2026

The M.Sc. in International Politics is a one-year full-time (two-year part-time) course that emphasizes research methods and skills in the theoretically guided study of developments in international politics. Topics covered may include but are not limited to questions around conflict and security, the development and stability of political regimes, policy making, economic inequality, and EU politics. Students will learn to design and conduct their own research using relevant social scientific theories and methods. They will also develop the skills to communicate research effectively in a variety of forms.

Career Opportunities

Students develop the necessary skills and knowledge for a range of research- related careers in the fields of applied policy research, business, government, law, media, international aid, and global governmental and non- governmental organisations as well as a solid foundation for a research Ph.Ds.

Admission Requirements

Candidates should normally have achieved an upper second-class Honours degree or higher from an established university. A background in a social science is advantageous but not a necessity. Applications are expected from candidates with a Single or Joint Honours degree in Political Science, Economics, European Studies, History, Sociology, Business or Law.

English Language Requirements

Philosophy M.Phil.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Farbod Akhlaghi
Email	philgrad@tcd.ie
Closing Date	30th June 2026

The M.Phil. in Philosophy is a broad and intellectually challenging postgraduate course for students with a background in philosophy or related disciplines with a strong philosophy component.

The wide-ranging curriculum is designed to enable students to understand what is distinctive about philosophical methodology, to critically engage with contemporary debates in the core systematic areas of philosophy and to combine modern historical scholarship with a rigorous contemporary philosophical approach.

Career Opportunities

Philosophy graduates find that their ability to be analytical, to question assumptions and to be innovative thinkers opens up to a range of opportunities in fields as varied as teaching, journalism, media, advertising, law, finance and technology. This M.Phil. is also particularly relevant for students interested in pursuing further philosophical research.

Admission Requirements

An undergraduate degree at second-class level (2.1) or above (or equivalent) in Philosophy is the normal requirement, but applicants who can demonstrate a strong Philosophy component in their degree in a different discipline will be considered on a case-by-case basis.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Race, Ethnicity, Conflict M.Phil.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Professor David Landy
Email	mphilrec@tcd.ie
Closing Date	31st July 2026

This one-year postgraduate course examines the techniques used by states and international agencies to manage peoples and conflict, their social and cultural impact and the responses they elicit. It applies a wide variety of sociological theories to racialisation, gender, migration, ethnic conflict and peace-making. Students are taught to complete an independent research project on these issues.

Staff, students and alumni form a friendly, ethnically diverse intellectual community with links to Trinity's Centre for Post-Conflict Justice, the Long Room Hub, Trinity Research in Social Sciences, the Migration and Employment Research Centre, and the Conflict and Resistance Research Group all in Trinity College Dublin, and with a host of national and international academic and civil society organisations involved in race critical theory, critical peace studies, antiracism, migrant support, Traveller rights and nomadism.

Career Opportunities

Our recent graduates work for NGOs (national and international), in migrant and Traveller rights, as barristers, playwrights, political activists, researchers, teachers, academics, Gardaí, journalists, social workers. According to figures compiled by the College Careers Service, more than 90% of our graduates from this course are either in employment, internships or further study.

Admission Requirements

Candidates should have an undergraduate degree at upper second-class level or equivalent (GPA of at least 3.2) in one of the Social Sciences or a degree that has included Social Science as a component.

Social Work and Social Policy

Applied Social Research M.Sc.

Course Page Link →
Course Video Link →

Duration1 year full-time / 2 years part-timeCourse DirectorDr. Louise CaffreyEmailpascoem@tcd.ieClosing Date31st July 2026

This Masters in Applied Social Research aims to equip students with the skills necessary to conduct social research, including advanced training in quantitative and qualitative methodologies. The course is multi-disciplinary and career-focused. Our teaching team comprises individuals with high-level research and teaching skills who have a strong repertoire of experience in the design, conduct, and publication of research.

Using a combination of lectures, workshops and practical assignments, this M.Sc. programme trains graduates to design and conduct primary social research using both quantitative and qualitative research methods; analyse the research data collected using a variety of computer programmes; and to write and present research findings to a variety of audiences.

Career Opportunities

The research and data analysis skills taught on this course have application in a wide range of areas, including scientific and health research, social work, education, child and youth studies, migration research, ageing and life course research, gender studies, marketing, management science, economics, psychology and sociology.

Admission Requirements

Applicants should normally have an upper secondclass (2.1) Honours degree in one of the Social Sciences. Applications from graduates in other disciplines who have relevant experience will also be considered.

Students will be required to undergo Garda Vetting, you can learn more <u>here</u>.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band C (Higher Entry) English language requirements. Visit the English Language Requirements page for more details.

Child Protection and Welfare M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Professor Ruth Elliffe
Email	mcconkee@tcd.ie
Closing Date	31st July 2026

This multi-disciplinary course offers a postgraduate qualification to practitioners and service managers whose work involves the protection and welfare of children. The course aims to enhance the knowledge base of professionals in statutory and voluntary services meeting the needs of vulnerable children and families.

A second year leading to a M.Sc. in Child Protection and Welfare is available to eligible candidates who have completed the Postgraduate Diploma with a 2.1 or better result. The M.Sc. is designed to build on the Postgraduate Diploma and aims to develop applied research skills in the field of child protection and welfare and is delivered completely online.

Career Opportunities

The diploma is undertaken by practitioners already working in statutory and voluntary organisations providing child protection and welfare service. Feedback from course participants indicate that the course provides them with opportunities for change and promotion within their organisations.

Admission Requirements

For Diploma applicants only: Applicants must have a degree or equivalent professional qualification. In addition, a minimum of three years' professional experience working with some aspect of child protection and welfare is required. Applicants may be shortlisted for interview.

Biochemistry and Immunology

Social Work M.S.W. / P.Grad.Dip.

Course Page Link →
Course Video Link →

Duration	2 years full-time
Course Director	Dr. Susan Flynn
Email	master.socialwork@tcd.ie
Closing Date	12th February 2026

Social work is challenging and rewarding and requires a personal commitment to the ideals and values of the social work profession. Those considering social work as a career option should be aware of its ethical and value dimensions and the commitment of practitioners to the promotion of social justice.

In accordance with Irish statutory regulations this
Master in Social Work/Postgraduate Diploma in Social
Work programme is approved by the national regulatory
body for health and social care professionals (CORU).

Career Opportunities

Our graduates have found employment in Ireland and abroad, in sectors including TUSLA, Child and Family Agency, Probation Service, Health-Related Social Work, Mental Health Services, Disability Services and Community Development. Others have chosen careers in research, advocacy, service management, and education and training.

Admission Requirements

Applicants should hold an NFQ Level-8 social science degree (2.1 degree or higher), or equivalent, and a minimum of 850 hours relevant practice experience.

All applications for the Master's in Social Work must include a breakdown and description of relevant work experience to date which indicates the total number of hours or weeks worked. Applicants must also provide one academic reference and one reference from their practice experience.

Entrants will have to pass Trinity's health screening requirements, you can learn more here.

Students will also be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band C (Higher Entry) English language requirements. Visit the English Language Requirements page for more details.

Immunology M.Sc.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director(s)	Professor Cliona O'Farrelly, Dr. Nigel Stevenson
Email	msc.immunology@tcd.ie
Closing Date	31st May 2026

This one-year Masters course in Immunology provides academic, laboratory and research training in cellular and molecular immunology, with emphasis on the interface between basic, clinical and therapeutic immunology. A major focus is on understanding how inflammatory regulation is lost in disease processes including viral, bacterial and parasitic infection, as well as cancer, autoimmune, and allergic disease.

The Immunology programme aims to provide students with a well-balanced and integrated theoretical and practical knowledge of Immunology, and to highlight the progress and intellectual challenges in this discipline.

This course includes the study of immunological processes and mechanisms, how they contribute to disease and how they might be manipulated therapeutically. By focusing on the molecules, cells, organs, and genes of the immune system, their interaction and how they are activated and regulated, students will develop a deep understanding of the pathological processes underpinning immune mediated disease and how they might be controlled.

Career Opportunities

Graduates of this course have pursued careers in academic research, medicine and the pharmaceutical industry for which a thorough grounding in immunology, immune-mediated pathogenic mechanisms and immunotherapy is required.

Admission Requirements

Applicants will normally be required to hold at least upper second-class Honours degree (2.1) or higher in Medicine, Veterinary Science, Molecular Biology, Genetics, Immunology, Biochemistry or a related subject.

English Language Requirements

Faculty of Science, Technology, Engineering and Mathematics

Computer Science and Statistics

Immunotherapeutics

M.Sc.

Course Page Link →
Course Video Link →

Duration	1 year full-time	
Course Director(s)	Professor Cliona O'Farrelly, Assistant Professor Jerrard Hayes	
Email	immunotherapeutics.msc@tcd.ie	
Closing Date	31st May 2026	

This one-year Masters course in Immunotherapeutics is an innovative and multidisciplinary postgraduate degree taught by leading academics in the field of Immunology with guest speakers from the biopharma industry.

Students will learn about the immune system in cancer, autoimmunity, infection and neurodegeneration, and how immunotherapies are revolutionising the treatment of life-threatening diseases. This course also includes the study of the exciting technologies of DNA/RNA vaccines, antibody, stem cell and CAR T-cell therapies, as well as immune-checkpoint blockade.

Career Opportunities

Graduates of the programme have a 100% employment rate in careers such as R&D, communications, sales, marketing and regulatory affairs. The School of Biochemistry & Immunology is at the forefront of immunological research worldwide, with Clarivate analytics describing three Trinity immunologists in the top 1% of researchers worldwide based on number of citations.

This Masters course has been designed in collaboration with the Biopharma industry in Ireland. Industry partners who provide to teaching and project placements include Merk Sharp & Dohme, Bristol Myers Squib, Alexion Pharmaceuticals, Takeda Pharmaceuticals, fusion antibodies, Avectas, Inflection Biosciences, Seroba Life Sciences, Carrick Therapeutics, Pfizer, HPRA, Charles Rivers Laboratories, APC, ICON.

Admission Requirements

Applicants will normally be required to hold at least upper second-class Honours degree (2.1) or higher in Medicine, Veterinary Science, Molecular Biology, Genetics, Immunology, Biochemistry or a related subject.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Computer Science—Augmented and Virtual Reality M.Sc. / P.Grad.Dip.

Course Page Link →
Course Video Link →

Duration	1 year full-time
Course Director(s)	Professor Doug Leith (Course Director), Dr. John Dingliana (Co-Director for Admissions)
Email	postgraduate@scss.tcd.ie
Closing Date	31st July 2026

The course equips students with the theoretical and practical knowledge to enable them to participate in the design and development of technology underpinning the interactive media industries, including video games, the metaverse and the wider industries of new media and communication.

The course is designed and taught by staff who are leading experts in their fields, and the course content is inspired by their cutting-edge work as well as their contacts with leading industry researchers around the globe.

Career Opportunities

Previous graduates from our M.Sc. programmes have gone on to work for games or visual effects companies, whilst many others work in broader areas involving computer vision, computer graphics or interactive digital applications. Companies where our alumni have taken up employment include: NVIDIA, Unity Technologies, Huawei, Volograms, The Foundry and Tencent Games.

Admission Requirements

Applicants must provide the following:

- An upper second-class (2.1) Honours degree grade or higher from a reputable university, in Computing or related discipline.
- Official transcripts.
- Proven programming competence. Candidates may be asked to complete a programming test in C, C++ or Java before being offered a place on the course. Some modules may also require programming in Python and other languages.
- A strong work ethic

English Language Requirements

For this course, applicants are required to meet the Band B (Standard Entry) level as defined in the English Language Requirements page. Visit the English Language Requirements page for more details.

Applications missing an English certificate may be rejected or experience delays in processing.

Computer Science—Data Science M.Sc. / P.Grad.Dip.

Course Page Link →
Course Video Link →

Duration	1 year full-time
Course Director(s)	Professor Doug Leith (Course Director), Dr. John Dingliana (Co-Director for Admissions)
Email	postgraduate@scss.tcd.ie
Closing Date	30th January 2026

The M.Sc. in Computer Science—Data Science programme combines statistics, cloud and security technologies with data management. It covers all key aspects of the field: how to securely store and manage data, how to visualise and analyse at scale, and how to use analysis to make decisions.

Graduates of this strand will be equipped to tackle the huge challenges and opportunities that the big-data revolution is bringing to all aspects of life; in IT, health, transport, science and engineering to name but a few.

Career Opportunities

We expect our graduates to be in high-demand for technical positions within leading multinational companies and from startups alike. All of the major Information Technology companies, from Google to Facebook to Amazon, employ large teams of data scientists.

Admission Requirements

Applicants must provide the following:

- An upper second-class (2.1) Honours degree grade or higher in Computing or related discipline.
- Official transcripts of all years of prior undergraduate third-level education.
- Proven programming competence. Candidates may be required to complete a programming test in C, C++ or Java before being offered a place on the course. Some modules may also require programming in Python and other languages.
- A strong work ethic.

English Language Requirements

All applicants whose first language is not English will be required to provide a certificate of proficiency in the English language. <u>Visit the English Language</u> Requirements page for more details.

Applications missing an English certificate may be rejected or experience delays in processing.

Computer Science—Future Networked Systems M.Sc. / P.Grad.Dip.

Closing Date	30th June 2026

The course explores how software systems embedded in our everyday environments, connect every day objects and makes them smart. This ranges from mobile social networking to managing city resources such as road traffic. Dealing with such large-scale, cyber-physical and distributed systems requires novel approaches that address timeliness, safety, privacy and scale challenges.

The course equips students with the skills and knowledge to tackle such challenges and take up careers in Computer Networking, Software Engineering and related fields, which have transformed society over the past 30 years and continue to enable new advances from Social Networking through the Internet of Things to Cloud Computing.

Career Opportunities

Previous graduates have gone on to work in Software Engineering, Financial Technology and other computing related companies including Facebook, Microsoft, Amazon, Oracle, Jaguar Land Rover, Citi and Genesys.

Admission Requirements

Applicants must provide the following:

- An upper second-class (2.1) Honours degree grade or higher in Computing or related discipline.
- Official transcripts of all years of prior undergraduate third-level education.
 Proven programming competence.
- Candidates may be required to complete a programming test in C, C++ or Java before being offered a place on the course. Some modules may also require programming in Python and other languages.

English Language Requirements

All applicants whose first language is not English will be required to provide a certificate of proficiency in the English language. <u>Visit the English Language</u> Requirements page for more details.

Applications missing an English certificate may be rejected or experience delays in processing.

Duration	1 year full-time

Email	postgraduate@scss.tcd.ie
Closing Date	30th June 2026

The M.Sc. in Computer Science—Intelligent Systems programme focuses on smart, interactive web applications and systems, which are becoming an integral part of our daily lives. Designing and building these systems requires expertise in artificial intelligence, human language understanding and generation, web systems and applications, data analytics and knowledge engineering. This strand is closely linked to the school's research groups involved in the ADAPT national research centre for Digital Content Technology.

Career Opportunities

Employment opportunities exist in a range of areas such as internet-based services, financial services, mobile communication companies. Students will also benefit from the comprehensive research scope, networks, and wealth of research achievements in both the School and the ADAPT Centre.

Graduates will be suited to careers in web technology companies such as Google, Facebook, Twitter, Amazon, LinkedIn, Microsoft, IBM, PayPal, Symantec, eBay and SAP, Business-Intelligence led organisations, Consultancy companies, Innovative start-ups building intelligent applications, and IT teams within large service organisations.

Admission Requirements

Applicants must provide the following:

- An upper second-class (2.1) Honours degree grade or higher from a reputable university, in Computing or related discipline.
- Official transcripts of all years of prior undergraduate third-level education. Proven programming competence.
- Candidates may be required to complete a programming test in C, C++ or Java before being offered a place on the course. Some modules may also require programming in Python and other languages.

English Language Requirements

Interactive Digital Media

M.Sc.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Professor Gareth Young
Email	postgraduate@scss.tcd.ie
Closing Date	31st July 2026

This one-year programme builds on a student's knowledge gained at undergraduate level to allow them to work in the digital media sector. The course will help students combine their existing skills with the technological knowledge needed to design and develop digital media applications.

Students receive a foundation in the theory and practice of creating and developing applications using all digital media types. The course concentrates on teaching the theory associated with developing and implementing digital media applications rather than teaching how to use off-the-shelf applications.

Students are exposed to programming languages and platforms as well as methodologies for the creation, capture and presentation of text, graphics, audio and moving images. The range of backgrounds and skills of the students each year facilitates exchange between different disciplines.

Career Opportunities

This course has been running since 1996 and now has more 400 graduates working in the digital media and related sectors, both nationally and internationally. The M.Sc. in Interactive Digital Media enables graduates to work and stay current in the digital media sector.

Admission Requirements

A 2.1 grade or higher from a reputable university is required, although exceptions can be made on the basis of considerable professional and/or creative experience. We require a portfolio showcasing relevant digital media, interactive projects, or creative technology work to strengthen applications.

English Language Requirements

Faculty of Science, Technology, Engineering and Mathematics

Engineering

Statistics and Sustainability M.Sc. / P.Grad.Dip.

Course Page Link →
Course Video Link →

Duration	1 year full-time
Course Director	Professor Arthur White
Email	postgraduate@scss.tcd.ie
Closing Date	31st July 2026

This one year full-time conversion course is intended for students who wish to deepen their statistical skills and develop an in-depth and applied understanding of sustainability from a variety of perspectives.

The course provides students with a wide range of modelling, computing, and statistical skills, and they will study a variety of sustainability topics that are key to developing solutions to environmental challenges from global to local levels. Communication skills will be developed via individual and team project work embedded in the curriculum, and there is an emphasis on developing student's skills to translate statistical outcomes to broad audiences in multiple contexts.

Career Opportunities

Designed for graduates of disciplines other than statistics who want to develop and deepen their knowledge of statistical methods for solving problems involving data, this course allows graduates to increase their employability and apply the ideas and methods to which they have been introduced in their own work. Graduates from the M.Sc.

in Statistics and Sustainability will emerge highly numerate and statistically skilled, and with an in-depth understanding of the sustainability and environmental issues facing today's world.

Admission Requirements

Applicants must have first-class or upper second-class (2.1) Honours undergraduate degree that includes at least one year of university-level Mathematics (including linear algebra and calculus topics). The programme also caters for applicants who already have an undergraduate degree in Mathematics, Statistics, or other highly quantitative subjects.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. <u>Visit the English Language</u> Requirements page for more details.

Biomedical Engineering M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Dr. Mark Ahearne
Email	ahearnm@tcd.ie
Closing Date	31st March 2026

The M.Sc. in Biomedical Engineering provides advanced training and education to the next generation of biomedical engineers. The course brings students to exciting new developments in biomedical engineering, ranging from development of new materials for use in cardiac therapeutics, designing innovative next generation medical devices, in silico design and modelling, to growing and regenerating new tissues for tissue replacement and in vitro disease modelling.

The Biomedical Engineering programme equips candidates with the education, problem-solving and creative skills, and training necessary to address important clinical needs in the medical devices industry, or research and clinical institutes. Students receive lectures from international experts in biomedical engineering subjects, specifically tailored to the current needs of industry and carry out research in internationally recognised, state of the art research laboratories and facilities.

One of the most unique courses of its kind in Ireland, the M.Sc. in Biomedical Engineering has received a number of awards, including Engineers Ireland: Excellence in Education Award (2012) and Best Postgraduate Course of the Year in Engineering (Winner 2012, Runner up 2016).

Admission Requirements

Applicants must hold a minimum of an upper second-class honours degree (2.1) or higher in Engineering, Biomedical Technology, or a cognate discipline.

Shortlisted candidates will be invited for an online interview with the Course Director. Outcomes of the interviews will be made known to candidates shortly after the interviews.

English Language Requirements

Climate Adaptation Engineering M.Sc. / P.Grad.Dip.

Course Page Link → Course Video Link →

Duration	1 year full-time blended learning (90% in-person / 10% online)
Course Director	Professor John Gallagher
Email	civeng@tcd.ie
Closing Date	30th June 2026

This one-year course focuses on Climate Adaptation Engineering in practice, deriving balanced solutions across engineering and the applied sciences. Candidates taking this course will develop a range of technical and practical skills through the core programme modules and the unique collaborative industry-led climate adaptation research project.

This engineering-led programme addresses the UN's Sustainable Development Goals in its curriculum through the modules and the industry-led research project. The course will advance knowledge and the capacity for innovation in candidates to support climate adaptation through sustainable oriented design and effective management of assets and resources in the built and natural environments.

The need for climate adaptation is a core part of addressing climate change impacts across all sectors. To effectively design and deliver balanced engineering solutions that supports climate adaptation for society, a multidisciplinary programme that can also provide graduates knowledge of climate and data science has been established.

Career Opportunities

Industrial collaboration is evident in this program with guest lectures providing input into the course from their professional practice, ground fundamentals and theory delivered by leading academics. Industry partners also support the industry-led research project, in which students apply their skills during their studies and respond to real-world challenges.

Admission Requirements

Applicants will be expected to have an Honours Bachelor's degree at 2.1 or above, in a STEM (science, technology, engineering or mathematics), architecture, urban planning, or a related cognate discipline.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Computational Engineering M.Sc. / P.Grad.Dip. / P.Grad.Cert.

Duration	1 year full-time / 2 or 3 years part-time
Course Director	Professor Biswajit Basu
Email	caroline.murphy@tcd.ie
Closing Date	31st July 2026

We are in the next Industrial revolution and the challenge faced by graduates is to succeed in an age of automation. There is no aspect of modern life unaltered by information processing engines. The principles enabling the design of this new wave of products are embodied in the discipline of Information Engineering.

This course provides graduate engineers with the skills to design modern computational products and systems. Graduates specialise in fundamental theory and applications relating to the generation, distribution, analysis, and information use in engineering/science.

Computational Engineering has evolved to encompass all aspects of simulation and design in the Engineering disciplines. All physical simulation tools rely on algorithms developed from a knowledge of computational techniques from graphics engines to financial prediction to fluid mechanics to electric power distribution.

Career Opportunities

While some of our students choose to undertake PhD research, most of our graduates enter the job market after qualifying. They have gained employment in

industries including digital assistive technology (speech recognition and synthesis), automotive systems (remote sensing and cyber-physical control), economics (quantitative automated trading), entertainment (audiovideo streaming and cinema visual effects), health (medical imaging) and computational science and engineering.

Admission Requirements

Admission is typically restricted to graduates who have achieved an upper second-class Honours degree (2.1), or higher, in Engineering, Science, Computing, Statistics, Mathematics or a related discipline. Well-qualified candidates or industry professionals from other disciplines who have sufficient knowledge of computational aspects of engineering and science may also be considered.

English Language Requirements

Electronic Information Engineering M.Sc. / P.Grad.Dip. / P.Grad.Cert.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 or 3 years part-time
Course Director	Professor Anil Kokaram
Email	anil.kokaram@tcd.ie
Closing Date	31st July 2026

We are in the next Industrial revolution and the challenge faced by graduates is to succeed in an age of automation. There is no aspect of modern life that is now not altered by information processing engines. Examples include teaching (online learning and assessment), automotive (driverless cars and electronic control systems), the economy (highspeed automated trading), entertainment and shopping (virtual assistants and recommendation engines), health (automated diagnostics and non-invasive body scanning) and the digital humanities.

The principles enabling the design of this new wave of products are embodied in the discipline of Information Engineering.

Career Opportunities

While some of our students choose to pursue PhD degrees from leading international universities, most of our graduates choose to enter the job market. They have gained employment in various industries, including digital assistive technology (speech recognition and synthesis), automotive systems (remote sensing and cyber-physical

control), economics (quantitative automated trading), entertainment (audio-video streaming and cinema visual effects), health (medical imaging) and computational science and engineering.

Admission Requirements

Admission is normally restricted to graduates who have achieved an upper second class honours degree (2.1), or better, in engineering, science, computing, statistics, mathematics or a related discipline. Well-qualified candidates or industry professionals from other numerate disciplines who have sufficient knowledge of computational aspects of engineering and science, may also be considered.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Engineering—Environmental / Structural and Geotechnical / Transport / Sustainable Energy

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Assistant Professor David O'Connell
Email	david.oconnell@tcd.ie
Closing Date	30th June 2026

The M.Sc. in Engineering is designed to provide graduate engineers with specialist understanding in one of the following areas:

- Environmental Engineering
- Structural and Geotechnical Engineering
- Transport Engineering
- Sustainable Energy Engineering

This course is accredited by Engineers' Ireland, which is a member of the European Network for Accreditation of Engineering Education (ENAEE) and the Washington Accord and thus internationally recognised by signature countries, including China (CAST), India (NBA), UK and the USA (ABET).

Career Opportunities

Most of our students enter the job market after graduation. They gained employment opportunities with private sector firms and county councils such as RPS Group, Arup, Jones Engineering Group and Dublin County Council, with the starting salary of between €30,000–€60,000 per annum, demonstrating the high value industry is placing on our graduates.

Students graduated from this programme can also choose to pursue further study. In previous years, our graduates received offers to study PhD degrees from international leading universities such as Trinity, Imperial College London, and University College London.

Admission Requirements

Applicants are required to possess a minimum 2.1 Honours degree or equivalent.

English Language Requirements

Mechanical Engineering M.Sc. / P.Grad.Dip. / P.Grad.Cert.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 or 3 years part-time
Course Director	Dr. John Kennedy
Email	jkenned5@tcd.ie
Closing Date	31st July 2026

The M.Sc. in Mechanical Engineering is designed to provide a flexible route to a Masters qualification for students who have completed a Bachelor's degree. It addresses advanced topics over a wide range of Mechanical and Manufacturing Engineering subjects.

Within the M.Sc., there is a wide range of module options and an excellent opportunity to engage in topical research with leading research groups within the School of Engineering, as an important part of this programme is a research dissertation, which directly builds on some of the content of the modules. Themed areas include advanced manufacturing. materials, fluid mechanics and automation design.

Students may also follow the Zero Carbon Technology option with a focus on technology to achieve the transformation to low-carbon energy and transport. The Zero Carbon Technology strand will cover power, transport and resources with related business and planning options.

Career Opportunities

Graduates have pursued careers in R&D and in high-tech sectors such as medical devices and aerospace, as well as PhD research.

Admission Requirements

Admission is normally restricted to graduates who have achieved an upper second-class honours degree (2.1), or better, in engineering, science, computing, statistics, mathematics or a related discipline. Well-qualified candidates or industry professionals from other numerate disciplines who have sufficient knowledge of engineering and science, may also be considered.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Music and Media Technologies M.Phil.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director(s)	Dr. Enda Bates, Caroline Murphy (Course Administrator)
Email	murphc49@tcd.ie
Closing Date	31st July 2026

A particular feature of this programme is a balanced approach to musical and technological topics. Musically, a strong emphasis is placed on the development of adaptable compositional skills, while technological topics are addressed from both a hands-on workstation/studio exposure and a fundamental mathematical and scientific basis, which focuses on musically relevant issues.

The overall objective of the MMT programme is to provide a thorough grasp of the principles and applications of computer, audio and video technologies in combination with significant exposure to media related topics such as music, visual music, and interactive installations.

Career Opportunities

Graduates have pursued careers in the arts as composers, musicians and performers in a wide and diverse range of styles and genres, as well as careers in education and academic research; digital signal processing; software and hardware development; audio engineering; sound design for gaming, film, theatre, and virtual reality; acoustics; video editing; TV and film production; and web design.

Admission Requirements

Applicants are assessed on the following:

- Required to possess a minimum 2.1 Honours degree (preferably, but not necessarily) in music, engineering or science.
- Musical/compositional/artistic and/or technological ability as evidenced by a portfolio submission.
- Academic and/or professional references.
- A personal statement addressing why you would like to do the course and why you think you are suitable.

English Language Requirements

Faculty of Science, Technology, Engineering and Mathematics

Zero Carbon Technology M.Sc. / P.Grad.Dip. / P.Grad.Cert.

Course Page Link →
Course Video Link →

Duration	1 year full-time / 2 or 3 years part-time
Course Director	Dr. John Kennedy
Email	jkenned5@tcd.ie
Closing Date	31st July 2026

The M.Sc. in Zero Carbon Technologies addresses how technology to achieve the transformation to low-carbon energy and transport. The Zero Carbon Technology strand will cover power, transport and resources with related business and planning options. Within the M.Sc. there is a wide range of module options and an excellent opportunity to engage in topical research with leading research groups within the School of Engineering.

An important part of the M.Sc. programme is a research dissertation, which directly builds on some of the content of the modules. Themed areas include advanced manufacturing, materials, fluid mechanics and automation design.

This M.Sc. course can be taken as either a full-time one-year or a part-time two-or three-year postgraduate course.

Career Opportunities

We expect graduates to be in high demand for research and development positions within leading multi-national and international companies and start-up companies alike.

Admission Requirements

Admission is normally restricted to graduates who have achieved an upper second-class honours degree (2.1), or better, in engineering, science, computing, statistics, mathematics or a related discipline. Well-qualified candidates or industry professionals from other numerate disciplines who have sufficient knowledge of engineering and science, may also be considered.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. <u>Visit the English Language</u> Requirements page for more details.

High Performance Computing M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Professor Kirk Soodhalter
Email	ksoodha@maths.tcd.ie
Closing Date	31st July 2026

The M.Sc. in High-Performance Computing is a one-year full-time programme run by the School of Mathematics at Trinity College Dublin. The degree provides practical training in the emerging field of high-performance technical computing, which has applications in scientific simulation and mathematical modelling of systems in areas ranging from telecommunications to financial markets.

The aim of the course is to train students in practical applications of high- performance technical computing in industry, finance and research. During your year in Trinity, you will develop the expertise to make use of a large number of computer processing cores and use them to solve large numerical problems quickly, precisely and reliably. The course presents the practical mathematical skills needed to translate descriptions of complex systems into a form the computer can manipulate and solve efficiently.

Career Opportunities

Successful graduates of the course go on to careers in technical and scientific computing and modelling, either in industrial or academic positions. A substantial number of graduates begin research towards their PhD directly after completing the course, studying topics as diverse as astrophysics, biomolecular modelling, fluid mechanics, and financial mathematics.

Admission Requirements

Applicants should normally have a first or upper second-class (2.1) degree in a subject with a significant mathematical component and should have some knowledge of computing and numerical simulation methods.

English Language Requirements

Natural Sciences

Quantum Fields, Strings and Gravity M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Professor Andrei Parnachev
Email	msc-qft@maths.tcd.ie
Closing Date	31st July 2026

The Quantum Fields, Strings and Gravity is a one-year, full-time taught M.Sc. programme is run by the School of Mathematics at Trinity. The degree offers advanced education in modern High Energy Theory and Mathematical Physics. The topics include string theory, conformal field theory, general theory of relativity & cosmology, quantum field theory and lattice gauge theory.

Students will have an opportunity to discuss cuttingedge research and perform their own M.Sc. dissertation work under the supervision of the School of Mathematics staff, who are world experts in the field. The aim of the programme is to give undergraduate students an excellent opportunity to advance their knowledge and skills up to a level required for doctoral level research.

Career Opportunities

Successful graduates are expected to continue their education at top PhD programs in Theoretical Physics in the world. Master's students will be strong applicants for IRC postgraduate funding for a PhD within Trinity's School of Mathematics. This course will provide the background necessary to carry out research in a wide range of areas in mathematical and theoretical physics.

Admission Requirements

Applicants are expected to have achieved a Second-Class Honours (2.1) in a Bachelor's degree in Theoretical Physics or Mathematics or Physics with a strong Theoretical Physics component.

Applicants must also provide a personal statement detailing their interests and clearly indicate whether they wish to follow the formal or lattice pathway on their application. All applicants should provide updated academic transcripts and arrange for two references.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. <u>Visit the English Language</u> Requirements page for more details.

Biodiversity and Conservation M.Sc. / P.Grad.Dip.

Course Page Link →

Duration	1 year full-time
Course Director	Dr. Nicholas Payne
Email	paynen@tcd.ie
Closing Date	31st July 2026

Biodiversity is the diversity of all life on earth and is currently being lost at an increasing rate. Biodiversity provides us with food, clothing, fuels, construction materials, medicines, and a range of ecosystem services. We ourselves are part of the biodiversity of this planet: we must understand and conserve biodiversity to secure a sustainable future for humanity.

Career Opportunities

The programme provides in-depth training and experience for those looking to further their career in biodiversity and its conservation, including in a range of international non-governmental organisations (NGOs), government departments and environmental consultancies. Graduates can also pursue further postgraduate research in this area.

Course Content

Students take a variety of theoretical, practical and project modules.

Theoretical modules include: Introduction to Biodiversity; Introduction to Conservation Biology; Practical Environmental Assessment; Human Interactions with Biodiversity; Impacts of Environmental Change on Biodiversity.

Practical skills modules include: Data Handling and Analysis; Taxonomy; Practical Conservation Skills; and Overseas Field Course.

Project modules include: Individual Desk Study; Project Planning; and an Individual Research Project.

Admission Requirements

Applicants should hold at least an upper second-class (2.1) Honours degree—or an equivalent qualification—in a science subject that includes significant components of botany, zoology or a relevant life science. Candidates with relevant, and significant, experience as professional practitioners in biodiversity management or policy may be accepted with lower qualifications.

English Language Requirements

Development Practice M.Sc. / P.Grad.Dip.

Trinity College Dublin The University of Dublin

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time / 2 years part-time
Course Director	Professor Padraig Carmody
Email	carmodyp@tcd.ie
Closing Date	31st July 2026

This programme encompasses an integrated theoretical and practical approach with multidisciplinary training in four 'pillars'—health, natural, social, and management sciences. Thirteen core academic modules provide rigorous training across the core pillars, complemented by Masters-level training in research design, methodology, and methods, including training in leading edge quantitative, qualitative, and digital tools and techniques.

The programme includes a work-based or research placement which provide hands-on practical experience for students, often in international Development NGOs and international intergovernmental organisations.

Career Opportunities

Graduates of this course are in high demand from international organisations such as the Global Business Initiative on Human Rights, Economics and Social Research Institute, World Food Programme (UN), US Environmental Protection Agency (EPA), Washington DC, Oxfam, United Nations Global Impact, PwC Ireland, Trócaire, New York League of Conservation Voters, KPMG, Board Bia, and the Department of the Environment, Climate and Communications and X (formerly known as Twitter).

Admission Requirements

Applicants must have achieved a first or upper second-class Honours degree (3.5 GPA equivalent) awarded by a reputable university or third-level institution, or a recognised awarding body (such as the NCEA).

In exceptional cases applicants with a lower grade in their primary degree will be considered if they have demonstrated outstanding achievement in their practical work in the field of international development through their work for government or inter or non-governmental organizations.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Environmental Sciences M. Sc. / P. Grad Dip

M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Dr. Juan Diego Rodriguez-Blanco
Email	rodrigjd@tcd.ie
Closing Date	31st July 2026

The degree in Environmental Sciences, the first of its kind in Ireland, has an established pedigree, attracting students with diverse academic backgrounds from Ireland and abroad. It comprises a series of taught modules encompassing a variety of current environmental themes, followed by a five-month research project. There is also the possibility to opt for a Postgraduate Diploma in Environmental Sciences, consisting of the taught modules only.

The aims of this course are to promote an understanding of environmental science, and the capability to apply that knowledge to current environmental issues and sound environmental management; to develop the necessary intellectual skills and practical expertise to design and execute independent research; and to cultivate skilled communicators able to organise ideas and disseminate them through written and oral presentations.

Career Opportunities

Some examples of jobs that our M.Sc. students have embarked after finishing this programme are environmental field scientist, research assistant (project scientists),

environmental consultant, instrument and GIS technician, analyst for water quality (or other environmental data analyst). Employers include Sustainable Energy Authority of Ireland, Gas Networks Ireland, Kerry Group, Inland Fisheries Ireland, Veolia, CSO, Headcount Engineering, Jacobs Engineering, Teagasc, Promar International UK, Pfizer, RSK Ireland, and Calx.

Admission Requirements

Applicants are required to possess a minimum 2.1 Honours degree or equivalent.

Two academic references, or reference letters from industry for candidates who left academia several years ago.

English Language Requirements

Global Challenges for Sustainability (Charm EU) M.Sc.

Course Page Link → Course Video Link →

Duration	2 years full-time
Course Director	Dr. Annemarie Bennett
Email	charm-eu@tcd.ie
Closing Date	31st March 2026

The CHARM-EU Masters in Global Challenges for Sustainability offers a unique international learning opportunity. CHARM-EU students will have the chance to address the pressing need for sustainability in a transdisciplinary and challenge-based environment.

This international programme employs an innovative pedagogical approaches and mechanisms to engage staff and students of diverse backgrounds and disciplines to facilitate, foster and enhance the links between education, research and innovation. Furthermore, active engagement with CHARM-EU's extended network of academic experts and extra-academic actors (i.e. business, community and society) increases the potential development and employability of our graduates.

For more information and to apply, visit the CHARM-EU website.

Career Opportunities

Graduates have pursued sustainable policy and communication roles, entrepreneurship, sustainability specialist and consultancy roles within a wide range of organisations, as well as further academic research.

Admission Requirements

Applicants must hold at least a Bachelors degree or equivalent (EQF level 6 or higher).

C1 English language certification is necessary for admission to the programme. Students with B2 English certification will be considered in conjunction with other admission criteria but must attain C1 level before enrolment.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Smart and Sustainable Cities

M.Sc. / P.Grad.Dip.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Dr. Philip Lawton
Email	Philip.lawton@tcd.ie
Closing Date	31st July 2026

The growth and development of cities in the 21st Century presents significant challenges, including sustainable development, the planning and design of urban space and social wellbeing. With thousands of smart-city initiatives around the world, smart urbanism is now one of the dominant models of urban development.

This new M.Sc. in Smart and Sustainable Cities approaches the study of smart and sustainable urbanism by drawing from the research-based expertise of leading scholars from Trinity's Energy, Environment and Emerging Technologies Institute (E3). The programme provides an in-depth understanding of smart and sustainable cities, using the tools of urban geography to examine the spatial formation of smart cities; methods in engineering and computer science to analyse the function of smart technologies, and ecological insights to explore the environmental impact of both 'smart-city projects' and wider transformations of contemporary cities.

Career Opportunities

This course is designed to meet the learning needs of students who want to enter an expansive but demanding employment market, preparing them for professional work in institutions and public or private companies in the field of Smart and Sustainable Cities.

Admission Requirements

Applicants will be expected to have an upper second-class (2.1), or above, Honours Bachelor's degree in a social science or science-based course such as Engineering, Sociology, Computer Science, Economics, and Geography.

Applicants may be interviewed or asked to submit a written sample for assessment. Non-standard applicants may be considered by the Dean of Graduate Studies in exceptional circumstanced based on workplace experience or other relevant criteria.

Postgraduate Prospectus 2026

Faculty of Science, Technology, Engineering and Mathematics

Physics

Energy Science M.Sc. / P.Grad.Dip.

Course Page Link →
Course Video Link →

Duration	1 year full-time
Course Director	Professor Juan Diego Rodriguez-Blanco
Email	energyscience@tcd.ie
Closing Date	30th June 2026

The M.Sc. in Energy Science is a one-year taught Masters programme, jointly run by the Schools of Chemistry, Natural Sciences, Physics and Engineering. The aim is to provide students with a broad knowledge and experience of both the science and application of conventional and sustainable energy technologies.

The syllabus covers many topics, including energy economics and policy; natural resource management; fossil and nuclear energy; conventional energy conversion devices; sustainable energy technologies; power systems, power electronics and electrical systems; and the environmental impact of energy usage.

From the fundamental scientific principles to the challenges of application, each topic is presented using the combined expertise of our multidisciplinary teaching staff.

Career Opportunities

Graduates of the M.Sc. in Energy Science have knowledge and skills applicable to a host of energy orientated industries, including power generation and distribution, electronics, automotive, aviation, construction, and oil and gas. For graduates interested in academic research, the societal pursuit of clean and secure energy is at the heart of the research agenda of every major country.

Admission Requirements

This M.Sc. programme is suitable for graduates who have achieved an upper second-class (2.1) Honours degree or the international equivalent in either Physical Sciences or Engineering. However, applications from similarly qualified candidates from other disciplines are welcome if they can demonstrate a sufficient level of knowledge or interest in Energy Science.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. <u>Visit the English Language</u> Requirements page for more details.

Quantum Science and Technology M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Professor Felix Binder
Email	quantum@tcd.ie
Closing Date	30th June 2026

Over the last 100 years, quantum mechanics has been remarkably successful in describing the world at microscopic scales. It is now well accepted that being able to control quantum systems allows us to exploit many physical properties, such as superposition. This ability will revolutionise the way we communicate, process and store information as well as help us to develop new technologies.

This M.Sc. focuses on the theoretical and software aspects of this technology. Specifically, it focuses on a unique blend of quantum information science, the physics of quantum hardware and quantum materials. It will also enable you to develop key skills in the area, such as how to write programs for quantum computers and to network with like-minded students who are interested in pursuing further studies in this area.

Career Opportunities

Graduates of this programme will be uniquely placed to work across the quantum science and technology sector as well as related areas of industry. For those interested in pursuing academic research, Trinity hosts many internationally recognised academics in quantum research.

Admission Requirements

Applicants will be expected to have an Honours
Bachelor's degree at 2.1 or above in Physics, Mathematics,
Computer Science or Engineering (or equivalent).
Applicants with lower than a 2.1 will be considered on
a case-by- case basis by the Dean of Graduate Studies.
In case of heavy competition for places or concerns
regarding a particular applicant's suitability, applicants
may be interviewed online.

Closing Date

3 years part-time (Special Care Dentistry), Professor Alison Dougall (Special Care Dentistry), Associate Professor Brett Duane (Dental Surgery), Professor Padhraig Fleming (Orthodontics), Professor Anne O'Connell (Paediatric Dentistry), Associate Professor Brett Duane (Dental Public Health)

The D.Ch.Dent. in Dental Surgery offers 7 strands: Special Care Dentistry (also available part-time), Periodontics, Prosthodontics, Oral Surgery, Orthodontics, Paediatric Dentistry, and Dental Public Health (also available part-time).

Admission Requirements

Applicants will be considered only if they have held a primary dental qualification for at least two years. The MFD/MJDF or equivalent is mandatory, unless applying for the Dental Public Health programme. Normally, up to 12 months should have been spent working in hospital practice. Good communication skills in English are essential.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band C (Higher Entry) English language requirements. <u>Visit the English Language</u> Requirements page for more details.

Entrants will have to pass Trinity's health screening requirements, you can learn more here.

Students will also be required to undergo Garda Vetting, you can learn more here.

Addiction Recovery M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time / 2 years part-time
Course Director	Professor Joe Barry
Email	joebarry@tcd.ie
Closing Date	31st July 2026

This M.Sc. in Addiction Recovery course is the first of its kind in Ireland with no identical course offered internationally. The interdisciplinary collective strengths of the School of Medicine, Faculty of Health Sciences regarding lecture provision from the Schools of Pharmacy and Health Service Executive, as well as other leading addiction practitioners within non-statutory services are unprecedented.

The course content will be underpinned by the integration of pioneering research in the field of Addiction Recovery to ensure the focus of the material delivered is current evidenced based research, which will, in turn, inform evidenced based best practice.

Career Opportunities

Graduates of the course are able to demonstrate a range of skills necessary to work in treatment and prevention services, health and community service management, research, education and training; and other services for people with addiction issues.

Admission Requirements

Prospective students will have graduated with a degree in a health or social care-related discipline at a minimum 2.1 level, and will have at least three years professional experience. Other applications may be considered in exceptional circumstances, based on workplace experience. In the case of applicants with no professional experience, a submission may be considered by the course committee where the student can secure placement for the duration of the course and the course committee are satisfied that the student will adequately benefit from completing the course.

English Language Requirements

Applied Clinical Neuropsychology M.Sc.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Professor Niall Pender
Email	gradapps@tcd.ie
Closing Date	31st March 2026

This new Masters programme is the first of its kind in Ireland and has been designed for psychology graduates with a keen interest in neuropsychology. Students will acquire a unique interdisciplinary, research-led learning experience, from experts in neurology, neuropsychology and neuroscience.

They will develop an understanding of key research methodologies used in the assessment of brain-behaviour relationships together with an extensive knowledge of the different clinical presentations, diagnostic issues and neuropsychological profiles of a broad range of neurological disorders and diseases. Students will also explore key concepts in neurorehabilitation and relevant therapies in the clinical care and management of these complex neurological conditions.

Students will be encouraged to adopt a clinical scientist/practitioner approach to their learning. Innovative assessment methods will reflect real-life examples of the working lives of clinical and research neuropsychologists and cognitive/behavioural neurologists, whilst adhering to best academic practices in teaching and learning in higher education.

Career Opportunities

This course will enable students to develop the knowledge, skills and attitudes necessary for further clinical training, such as clinical psychology and clinical neuropsychology, or a career in clinical research.

Admission Requirements

Applicants will be required to hold at least a minimum of an upper second-class honours degree (2.1) in Psychology from a recognised university course, which confers eligibility for graduate registration with the Psychological Society of Ireland or equivalent professional body in the case of overseas applicants.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Biomedical Sciences (Intercalated) M.Sc. / P.Grad.Dip.

Course Page Link →

Duration	1 year full-time
Course Director	Dr. Henry Windle
Email	hjwindle@tcd.ie
Closing Date	30th June 2026

Scientific knowledge and discovery are at the heart of medical advances. The Biomedical Sciences programme is designed to expose students to advanced fields of research in one of five specialist tracks: Molecular Medicine; Neuroscience; Translational Oncology; Healthcare Infection; and Immunology.

Students are also exposed to original research that enhances their understanding of the molecular mechanisms of disease.

The course aims to provide the participants with an understanding of the basic biology and advanced molecular mechanisms of various disease states; knowledge of current treatment strategies for disease management and treatment; knowledge of core techniques used to answer research questions in biomedical sciences; practical laboratory skills, experience in troubleshooting, and expertise in selected methodologies to facilitate a research or research-related career.

Career Opportunities

Graduates for this programme have pursued medical and biomedical research as well as careers in a range of areas including international research laboratories, government agencies and the private sector.

Admission Requirements

Admission is restricted to undergraduate students in Year 3 (and occasionally Year 4) in Trinity's School of Medicine. At this point, students will have qualified for a B.A. which is normally awarded when the students are conferred with their final M.B. The intercalated Master's will also be conferred then.

The course is coordinated through the Department of Clinical Medicine, Trinity, St James's Hospital Dublin. All references provided must be from Trinity academics.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

Cancer Survivorship M.Sc. / P.Grad.Dip. / P.Grad.Cert.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Professor Deirdre Connolly
Email	msccancersurv@tcd.ie
Closing Date	31st July 2026

Cancer survivorship is recognised as a distinct period within the cancer continuum that commences at diagnosis and continues through until the end of life. The M.Sc. in Cancer Survivorship is the first of its kind in Ireland with no identical course offered internationally. It provides students with knowledge and skills to apply evidence-based practice to cancer survivorship care. Three postgraduate qualifications are available: a postgraduate certificate, a postgraduate diploma or a Masters in Cancer Survivorship.

The course content is underpinned by the integration of pioneering research in the field of cancer survivorship to ensure the focus of the material delivered is current evidenced based research, which will, in turn, inform evidenced based best practice in cancer survivorship care.

The course is delivered by a multidisciplinary academic team who are driving developments in survivorship care and research nationally and internationally. The teaching staff includes academics, clinicians, service providers and service users who are at the forefront of cancer care, research and policy in Ireland.

Career Opportunities

This course provides health and social care professionals evidence-based knowledge to design and deliver cutting edge cancer survivorship care. Graduates have also pursued further clinical and academic research.

Admission Requirements

Applicants are required to posses a minimum 2.1 Honours degree or equivalent.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Diagnostic Radiography M.Sc.

Course Page Link →

Duration	2 years full-time
Course Director	Assistant Professor Suzanne Dennan
Email	dennans@tcd.ie
Closing Date	30th June 2026

This course is offered by the School of Medicine and is designed to provide high-quality academic education and practical training to enable graduates to practice safely and independently as diagnostic radiographers. The M.Sc. in Diagnostic Radiography programme at Trinity is approved by CORU, Ireland's multi-profession healthcare professional regulator.

Is This Course For Me?

The M.Sc. in Diagnostic Radiography is aimed at graduates with a science or healthcare-related undergraduate degree that wish to pursue a career in diagnostic radiography.

The course is designed to provide high-quality academic education and practical training to enable graduates to practice safely and independently as diagnostic radiographers.

Career Opportunities

The programme will equip diagnostic radiography graduates with the necessary technical and professional skills required to meet the demands of a constantly evolving profession.

Admission Requirements

Prospective students will be graduates with a science or

healthcare related undergraduate degree (at minimum 2.1 level). Graduates from other disciplines may also be considered.

Other applications may be considered in exceptional circumstances based on workplace experience.

Shortlisted applicants will be invited for interview, which will be adjudged based on:

- Personal motivation.
- Communication skills.
- Academic achievements (including qualifications and research to date).
- Technical knowledge of diagnostic radiography.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Course Page Link →

Course Video Link →

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Professor Kumlesh K. Dev
Email	devk@tcd.ie
Closing Date	30th June 2026

The M.Sc. in Entrepreneurship of Smart Medicines programme is designed to provide a new language to those coming from a non-biology background in drug discovery and pharmaceutical development. The course is also designed to provide a language of business and commercialisation to those knowledgeable in the area of biology. This course provides training in the area of drug development, biotech, pharma, and commercialisation.

This course will suit entrepreneurs, business sector specialists, and venture consultants and professionals looking to upskill in drug discovery and pharmaceutical development.

Career Opportunities

Designed to bridge the gap between business and biology, this course trains, converts and upskills the 'biologist-to-business' and 'business-to-biologist', opening the door to careers in drug development, biotech, pharma and commercialisation.

Admission Requirements

Applicants will be expected to have an Honours Bachelor's degree at 2.1 (or above) in Science (such as cell biology, immunology, neuroscience, pharmacology, physiology), Health Sciences (such as medicine, nursing, allied health) or Business (including entrepreneurship, innovation, venture capital). Applicants with other primary degrees will also be considered.

Other applicants without a primary degree may be considered by the Dean of Graduate Studies in exceptional circumstanced based on workplace experience.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements.

Visit the English Language Requirements page for more details.

Genomic Medicine M.Sc.

Duration1 year full-time / 2 years part-timeCourse DirectorAssistant Professor Shigeki Nakagome (School of Medicine)Emailnakagoms@tcd.ieClosing Date31st July 2026

This M.Sc. aims to provide participants with the knowledge and skills to generate, evaluate and use genomic data, covering analytical, technological and biomedical aspects. Understanding the importance of genomic variation and its impact on biology opens the possibility of advanced diagnostics and precision treatments, as well as an improved fundamental understanding of disease mechanisms and the effects of environmental exposures. Such developments will in turn lead to further, more specific therapeutic opportunities.

The M.Sc. in Genomic Medicine aims to provide students with a cutting-edge overview of the theory and practical applications of genomics in the health sciences. The programme is aimed at participants from a range of backgrounds, from basic scientists to clinicians and those involved in the life science/pharmaceutical industry and related fields.

Career Opportunities

The course provides participants with the knowledge and skills to generate, evaluate and apply genomic data, covering analytical, technological and biomedical aspects. Graduates have upskilled in the area of genomic medicine and have pursued an array of academic, clinical and industrial career paths.

Admission Requirements

The programme is open to graduates that hold a professional degree at upper second-class (2.1) level or equivalent. Ideally this qualification will be from a medicine, nursing, or general science background, but graduates from other degrees will be assessed on an individual basis. Relevant professional experience will also be taken into account.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Global Health M.Sc.

Trinity College Dublin The University of Dublin

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Dr. Felicity Daly
Email	global.health@tcd.ie
Closing Date	30th June 2026

Global health is an area for study, research, and practice that places a priority on improving and achieving equity in health for all people worldwide. Global health emphasises transnational health issues, determinants, and solutions; involves many disciplines within and beyond the health sciences and promotes interdisciplinary collaboration; and is a synthesis of population-based prevention with individual-level clinical care.

The M.Sc. in Global Health is a multidisciplinary course using biosocial models to address global health challenges. It augments traditional approaches to public and international health by bringing together perspectives and insights from a range of health and social sciences in understanding and resolving the challenges of global health.

Career Opportunities

Graduates pursued leadership positions in global health research, policy and practice, among a variety of other fields related to global health issues.

Admission Requirements

Applicants are required to complete an online application and provide some of the following documents:

- Applicants are required to possess a minimum 2.1 Honours degree or equivalent.
- A personal statement stating your interest in global health issues, why you wish to participate in the course, prior global health experience, and your career aspirations.
- A professional CV.
- Two references, with at least one from a contact in academia.
- Copies of certificates of English language competence (for applicants whose native language is not English or who have not been taught at university in the English language).

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Global Mental Health M.Sc.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Dr. Meg Ryan
Email	globalmentalhealth@tcd.ie
Closing Date	11th July 2026

The course covers a range of cognate topics, including inequalities in the prevalence and development of a broad range of mental health difficulties; social determinants of mental health and wellbeing; a focus on context and culture; the accessibility and acceptability of evidencebased interventions; and international and national mental health systems, focused on humanitarian and emergency settings.

Students enrolled on the M.Sc. Global Mental Health programme will receive extensive theoretical and practical training on programming within Mental Health and Psychosocial Support (MHPSS), delivered in collaboration with international and non-governmental humanitarian organisations. Students will also receive advanced training in global mental health research, including qualitative and quantitative methodologies, as well as research ethics.

This programme is intended for individuals from a wide range of disciplines and professions who wish to develop an understanding of health issues that integrate health and social science perspectives in a global context. As global mental health is a multidisciplinary field, applicants can be graduates of any academic discipline.

Career Opportunities

Graduates have pursued careers in global mental health research, mental health and psychosocial programming, project management, and policy, among a variety of other fields related to global mental health issues.

Admission Requirements

Applicants will be expected to have an Honours Bachelor's degree at 2.1 or above, in a global health-related and/or psychology-cognate area from a recognised university.

Applicants should also have international experience, a strong interest in global mental health, and meet Trinity's English language proficiency requirements.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Health Policy and Management M.Sc.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director(s)	Dr. Carlos Bruen, Professor Sarah Burke
Email	mschpm@tcd.ie
Closing Date	30th June 2026

The Health Policy and Management programme equips learners with vital knowledge, skills and tools for understanding, researching and working in complex and changing health and social care systems.

From reforming and managing health systems, to implementing organisational, technological and digital innovations, course participants acquire a detailed theoretical and practical understanding of major health system challenges and developments—and how to address them.

This unique Masters programme is suitable for healthcare professionals (such as doctors, nurses, allied healthcare providers, facility managers, and public administrators) as well as recent health and social sciences graduates.

Career Opportunities

The Health Policy and Management course will equip learners with the knowledge and skillset to have a successful career in health systems, policy, and management.

Admission Requirements

Applicants will need to:

- Hold at least a 2.1 honours undergraduate degree or above from an Irish university or the equivalent result from a university in another country.
- In a related professional or academic discipline (e.g., medicine, nursing, allied health professions, management, social sciences, or health sciences, among others).
- Demonstrate evidence of professional and/or academic experience.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Healthcare Infection M.Sc.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Professor Julie Renwick
Email	renwickj@tcd.ie
Closing Date	30th June 2026

In the modern healthcare setting, the effective management of infection invokes the skills and expertise of a wide range of medically and scientifically qualified professionals. This postgraduate qualification provides specialist teaching to meet the need for a multi-disciplinary approach to modern healthcare infection control.

The M.Sc. in Healthcare Infection is a multidisciplinary qualification which is primarily designed to support healthcare professionals or graduates. Our students often have backgrounds in medicine, pharmacy nursing and biomedical science, and are currently in employment in these fields. This programme provides an opportunity to enhance the skills and knowledge applicable to infection control.

Career Opportunities

Past students from Biomedical and Health Science backgrounds have pursued careers in research, industry and surveillance. Additionally, biomedical scientists have used this M.Sc. to gain fellowship to the Academy of Clinical Science and Laboratory Medicine (ACSLM).

Admission Requirements

Applicants should provide:

- An upper second-class (2.1) honours degree in Medicine, Biomedical Sciences, Nursing, Pharmacy, or Microbiology, or another relevant science subject.
- Evidence of relevant healthcare experience.
- Applicants whose first language is not English and who have not been educated through the English language must present a relevant qualification (such as an IELTS, at Grade 6.5 overall and no band grade below 6.0).

Applicants meeting these requirements may still be required to attend an interview.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director(s)	Professor Seamas Donnelly, Dr. Michelle Armstrong (Course Coordinator)
Email	armstrong@tcd.ie
Closing Date	31st July 2026

Healthcare is entering a period of accelerated disruptive innovation with rapid discovery and adoption of new approaches to improve patient outcomes. To thrive and lead in a world of increased complexity requires skills in innovative thinking and creative execution. Through this one-year postgraduate diploma programme, you will be supported to develop a personal innovation framework for leadership. You will be ready to propose future health solutions, stepping up to the next level in your career development.

Career Opportunities

This course aims to develop you as a strategic leader to engage, shape and enable a culture of innovation across your organisation; advance your ability to ideate, design and implement innovative and novel solutions for organisations or as entrepreneurs; develop you as a skilled practitioner, adept at harnessing innovation to thrive in the opportunity of tomorrows healthcare world; equip you with practical frameworks and the best in international innovation practices in innovation.

Admission Requirements

Applicants are expected to hold an undergraduate Bachelor's degree with an upper second-class (2.1) grade or higher. Experience of working in the healthcare sector is required.

Applicants whose first language is not English and who have not been educated through the English language must present a relevant qualification.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Molecular Medicine M.Sc.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time / 2 years part-time
Course Director(s)	Professor Ross McManus, Ana Llavori (Executive Officer)
Email	llavoria@tcd.ie
Closing Date	26th June 2026

The Molecular Medicine programme was established in 1997. The programme is delivered by more than 80 research experts, including academic scientists, clinicians and healthcare professionals from Trinity and its associated teaching hospitals as well as many external experts.

Students acquire broad theoretical knowledge of topics such as cellular signaling, genetics, oncology and immunology in human health and disease.

Specialist topics are also covered, such as the molecular basis of human diseases, the role of infectious agents in disease, advanced diagnostics and therapeutics, nano-medicine and medicinal chemistry.

A central component of the programme is practical 'hands-on' experience in state-of-the-art research laboratories, with access to the latest cutting-edge technologies in the biomedical and life sciences.

This course is designed for students with a primary degree in Biology, Medicine, Dentistry, Veterinary, Pharmaceutical Sciences, and other related scientific disciplines.

Career Opportunities

Course graduates have gone on to careers in the life sciences industry, research, academia and medicine.

Admission Requirements

Applicants should hold the minimum of an upper second-class (2.1) Honours Bachelor's degree or equivalent in a biological science subject; a clinical science such as medicine, dentistry or veterinary; a pharmaceutical science such as pharmacy; or another science-related area.

Other appropriate professional or industrial experience will be taken into account. Candidates may be interviewed to asses their suitability at the discretion of the course co-ordinators.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

M.Sc.

Course Page Link →
Course Video Link →

Duration	1 year full-time
Course Director	Professor Kumlesh K. Dev
Email	mscneuro@tcd.ie
Closing Date	30th June 2026

The M.Sc. in Neuroscience studies the functioning of the nervous system at all levels, from the molecules that make up individual nerve cells, to the complexities of animal and human behaviour. A major focus is on the molecular, biochemical and cellular basis of neurotransmission and synaptic function. The course also covers the physiology, pathophysiology and pharmacological treatment of psychiatric, neurodegenerative and neurological disorders.

The course provides students with a broad-based appreciation of the neurosciences, and in-depth instruction in certain specialised areas of neuroscience from both a theoretical and practical standpoint. From a practical perspective the course involves in-depth instruction in novel methodologies used in neuroscience/biomedical research, including the fundamentals of molecular, biochemical, and cellular biology.

In addition to neuroscience specific knowledge and skills, this M.Sc. programme also trains the student to become proficient in a range of transferable skills such as experimental design, data handling, research methods and written/oral communication skills.

Career Opportunities

The course will equip participants with the skills necessary to progress into a career in biomedical, pharmaceutical or neuropsychological research. Graduates have pursued medical and health-related degrees, direct entry into research labs, as well as PhD research across the world, from Ireland to Australia.

Admission Requirements

Candidates must hold a third level qualification, ideally in Biological Sciences, Neuroscience, Pharmacology, Physiology, Biochemistry, Allied Health Sciences, Medicine or a related discipline. Applicants should have achieved at least an upper second-class (2.1) Honour's bachelor degree or its equivalent.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Sports and Exercise Medicine M.Sc.

Course Page Link \rightarrow

Duration	1 year full-time
Course Director	Dr. Nick Mahony
Email	whitneyb@tcd.ie
Closing Date	29th May 2026

The M.Sc. is designed for medicine and physiotherapy graduates, as well as certified athletic training therapists (ARTI accredited) and sports rehabilitation therapists (UK accredited), who wish to pursue new career opportunities.

The aim of this programme is to allow participants to commence entry-level training or further their career progression in sports and exercise medicine by enhancing basic background knowledge in anatomy, exercise physiology and sports and exercise medicine and science.

Career Opportunities

Graduates have pursued diverse careers in multidisciplinary teams providing full-time or part-time healthcare to professional and amateur athletes players and teams, as well as providing high-quality musculoskeletal and exercise medicine to the general population involved in sport and exercise at all levels.

Admission Requirements

The programme is open to graduates from medicine and physiotherapy. There are a limited number of places on offer to certified athletic training therapists (Ireland, the USA and Canada only) and sports rehabilitation therapists (UK or UK accredited courses in Ireland).

UK and EU Applicants require an NFQ Level-8 degree at an upper second-class (2.1) honours or equivalent and applicants with post-graduate clinical experience and especially health service provision to athletes and teams will be prioritised.

Non-EU applicants require a first-class honours degree, preferably with 1st class honours in all undergraduate years; and show evidence of at least 2 years post-graduate clinical experience in musculoskeletal injury and applicants who show health service provision to athletes and teams will be prioritised.

Two references are also required.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Faculty of Health Sciences

Nursing and Midwifery

Translational Oncology M.Sc.

Course Page Link → Course Video Link →

Duration	1 year full-time
Course Director	Professor Joanne Lysaght
Email	msconcol@tcd.ie
Closing Date	31st July 2026

Cancer research is a significant strength at Trinity College Dublin and a major focus at its associated teaching hospitals, including St. James's Hospital. Global cancer incidences are rising rapidly each year and research exploring the underlying causes, mechanisms of tumour progression and response to treatments are vitally important.

This M.Sc. programme in Translational Oncology focuses on the cellular and molecular basis of cancer. The course also covers the scientific and clinical challenges pertinent to the management of site-specific cancers, and all aspects of cancer treatment from standard therapies to 'individualised' molecular targeted and immune-based therapies.

This one-year programme is aimed at scientists, clinicians and other healthcare professionals and provides students with an in-depth understanding of the theoretical and practical aspects of the causes and treatment of cancer.

Career Opportunities

Recognised by many academic and industry partners as a source of high-quality students, this course has had an employment rate above 92% in its last four years. Careers our graduates pursued span further research

(including PhD) through to employment in hospitals, university and medical centres.

Admission Requirements

This programme is open to candidates with qualifications in science, medicine, or a related discipline. Scientific, dental or equivalent candidates must have a minimum upper second-class (2.1) degree. Medical graduates must have a M.B., B.Ch., B.A.O. or equivalent from a recognised medical school.

All applicants should provide two academic or clinical references. Applicants should also include a 500 word personal statement addressing why they are interested in the programme and their suitability.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Ageing Health and Wellbeing in Intellectual Disability M.Sc.

Course Page Link → Course Video Link →

Duration

P.Grad.Dip. / P.Grad.Cert. 1 year part-time **Course Director** Dr. Eimear McGlinchey **Email** pgt.nursing.midw@tcd.ie 30th June 2026 **Closing Date**

This interdisciplinary course will develop and strengthen the skills, competencies, and knowledge of students, thus enabling them to promote and develop excellence in the delivery of care for people with an intellectual disability. Students will explore the physical health, policy, and complex care needs of people with intellectual disabilities.

The Trinity Centre for Ageing and Intellectual Disability based at Trinity College Dublin, hosts IDS-TILDA, the world leading longitudinal research initiative focused on ageing and intellectual disability and the most complete multidisciplinary body of research in this field. It directly informs policy and practice to enhance the lives of older people with intellectual disabilities. Students will learn from world leaders in the field, will participate in, contribute to and enjoy world-class intellectual disability practice and research, and be prepared as leaders in quality, evidence of proficiency in the English language. Applicants person-centred care for ageing people with an intellectual disability as they age.

Career Opportunities

This course prepares graduates to promote and develop excellence in the delivery of care for people with an intellectual disability in a wide range of settings.

Admission Requirements

M.Sc. 1 year full-time / 2 years part-time

Applicants must hold an upper second-class (2.1) degree, ideally in a science or medical-related discipline. In exceptional circumstances, applicants may be able to satisfy the selection committee that they have the academic ability to successfully complete the programme despite having achieved a lower or unrelated qualification.

Candidates should be registered with their relevant professions' regulatory body, where applicable.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Children's Nursing H.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	1 year full-time
Course Director	Ms. Thelma Begley
Email	pgt.nursing.midw@tcd.ie
Closing Date	30th June 2026

The aim of this programme is to educate graduates for the award of Higher Diploma in Nursing (Registered Children's Nursing). Students on the programme are prepared to develop skills of critical thinking, research, and reflection to become life-long learners and leaders in children's nursing management, advanced practice, leadership research and policy development at a national and international level.

Career Opportunities

Higher Diploma Children's Nursing graduates can work and specialise in a number of areas in hospital and community services. Children's nursing offers you an opportunity to make a difference in the lives of children and their families.

Postgraduate specialist programmes that children's nurses can pursue are the M.Sc. in Child Health and Wellbeing, M.Sc. in Specialist and Advanced Practice and other Postgraduate Specialist programmes.

Admission Requirements

Applicants must satisfy the following criteria:

Applicants are required to posses a minimum 2.1
 Honours degree in nursing or a related discipline.

- Be selected at interview by the Children's Health Ireland (CHI) committee.
- Be on at least one of the following divisions of the register as held by The Nursing and Midwifery Board of Ireland: General Nursing, Psychiatric Nursing and Intellectual Disability Nursing.
- Be on the active register as held by
 The Nursing and Midwifery Board of Ireland.
- Have at least six months of full-time, post-registration clinical nursing experience.
- Have relevant academic undergraduate qualifications which satisfy admission requirements.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. <u>Visit the English Language</u> Requirements page for more details.

Dementia M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration

P.Grad.Cert. / P.Grad.Dip. 1 year part-time

Course Director

Dr. Eimear McGlinchey

pgt.nursing.midw@tcd.ie

Closing Date

30th June 2026

This course is developed in partnership with national key stakeholders to meet the demands and challenges within the healthcare system and specifically within dementia care. The programme is firmly grounded in a body of knowledge and clinical expertise that aims to promote excellence in the area of dementia care practice. It is also designed to provide academically robust education for the students and the various modules offered develop and complement subjects undertaken at degree or 'equivalent' level.

Career Opportunities

This course prepares graduates from the nursing, medicine, occupational therapy, social work, physiotherapy, and chaplaincy sectors to specialise in the field of dementia with dementia- specific knowledge, skills and values to promote excellence in the area of dementia care practice.

Admission Requirements

Applicants are expected to have:

Applicants are required to posses a minimum
 2.1 Honours degree or equivalent.

- For the duration of the course all applicants are required to be engaged in an area relevant to dementia.
- Current registration on the appropriate division of Nursing and Midwifery Board of Ireland live register.

M.Sc. 1 year full-time / 2 years part-time

 A minimum of one year's professional experience in supporting persons with dementia in the past two years.

Candidates with relevant and significant experience as practitioners in the field of dementia care may be considered with a lower class degree or equivalent.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Mental Health M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration	M.Sc. 1 year full-time / 2 years part-time P.Grad.Dip. / P.Grad.Cert. 1 year part-time
Course Director	Dr. Peter Kelly
Email	pgt.nursing.midw@tcd.ie
Closing Date	30th June 2026

This course is run in partnership with the National Forensic Mental Health Service and is designed to enhance the collaboration between disciplines working with individuals with mental health issues. Students on this course will come from a variety of professions: nursing, medicine, occupational therapy, social work, An Garda Síochána, legal, psychology, probation and prison services.

Career Opportunities

As a graduate, you can expect that the specialist knowledge you acquire during this programme, combined with your existing knowledge and skills, will prepare you for leadership or enhanced roles across a variety of sectors.

Admission Requirements

Candidates should hold an upper second-class (2.1) Honours undergraduate degree in a relevant discipline, or otherwise satisfy the selection panel they have the ability to complete and benefit from the programme. Additionally required: 1 academic and 1 professional reference from the employer or work practice area. Each reference should confirm the potential and suitability of the applicant to undertake the course. Copies of academic transcripts from completed educational courses (a record of modules undertaken and results obtained). Copies of official awards (degree certificate) from completed educational courses. Part-time students who will be working during the course must submit a declaration, signed by their line manager indicating that they will be facilitated in attending lectures.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Mental Health—Child, Adolescent and Family M.Sc. / P.Grad.Dip.

 $\frac{\text{Course Page Link}}{\text{Course Video Link}} \rightarrow$

Duration

P.Grad.Dip. / P.Grad.Cert. 1 year part-time

Course Director

Dr. Peter Kelly

pgt.nursing.midw@tcd.ie

Closing Date

30th June 2026

This course is designed to enhance the participants' knowledge and skills in child, adolescent and family mental health. Participants on this course will come from a variety of professions: nursing; medicine; occupational therapy; speech and language therapy; social work; psychology; psychotherapy; teaching and education services.

Career Opportunities

As a graduate from this course, you can expect that the specialist knowledge that you have acquired during this programme, combined with your existing knowledge and skills, will prepare you for leadership or enhanced roles across a variety of sectors. This includes advanced clinical practice, CAHMS, policy development, education, social work, psychology/psychotherapy or research and further education.

Admission Requirements

Candidates should hold an upper second-class (2.1) Honours undergraduate degree in a relevant discipline, or otherwise satisfy the selection panel they have the ability to complete the course in the case of holding a lower qualification.

Applicants are required to already be working in the mental health field. In the case of the Child, Adolescent and Family strand, applicants must be working in child, adolescent and family mental health services and have a minimum of one year's recent experience, as well as Garda clearance for working with children and adolescents.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

M.Sc. 1 year full-time / 2 years part-time

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. <u>Visit the English Language</u> Requirements page for more details.

Mental Health Psychosocial Interventions P.Grad.Cert.

Course Page Link → Course Video Link →

Duration	M.Sc. 1 year full-time / 2 year part-time P.Grad.Dip. / P.Grad.Cert. 1 year part-time
Course Director	Dr. Peter Kelly
Email	pgt.nursing.midw@tcd.ie
Closing Date	30th June 2026

The aim of the Psychosocial Interventions strand of this programme is to strengthen and develop participants' knowledge and skills of working with psychosocial interventions, by providing them with in-depth and advanced psychological and social skills and interventions for people who experience psychosis or related experiences and their families/supporters.

Career Opportunities

This course provides students with the necessary knowledge and skills to work with people who experience psychosis or related experiences. It provides a foundation for graduates to advance their career prospects for specialist practice, both in terms of promotion eligibility and future post-graduate training.

Admission Requirements

Candidates should hold an upper second-class (2.1) Honours undergraduate degree in a relevant discipline, or otherwise satisfy the selection panel they have the ability to complete and benefit from the programme.

Additionally, applicants will require: one academic and one professional reference from the employer or work practice area. Each reference should confirm the potential and suitability of the applicant to undertake the course; Copies of academic transcripts from completed educational courses (a record of modules undertaken and results obtained); Copies of official awards (degree certificate) from completed educational courses; Part-time students who will be working during the course must submit a declaration, signed by their line manager indicating that they will be facilitated in attending lectures.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Midwifery H.Dip.

Course Page Link → Course Video Link →

Duration	18 months full-time
Course Director	Dr. Sunita Panda
Email	pgt.nursing.midw@tcd.ie
Closing Date	Check with the Coombe / Rotunda

This course is taught by the School of Nursing and Midwifery, Trinity College Dublin in partnership with The Rotunda Hospital, Dublin and The Coombe Hospital, Dublin. The course aims to develop midwives with the knowledge, skills and attitudes necessary to become competent, analytical and reflective practitioners, thus enabling them to provide care in a manner that benefits women, their babies and families.

Is This Course For Me?

This course is designed for NMBI (Nursing and Midwifery Board of Ireland) registered nurses with an undergraduate degree.

Career Opportunities

Midwifery graduates will be able to provide competent, safe midwifery care autonomously for women and their families; recognise the individuality of each woman and foster the development of shared decision making throughout the childbirth experience; and promote and support lifestyle choices that enhance the health and wellbeing of women, their families and the wider community.

Graduates will also be able to demonstrate informed decision-making skills and the ability to make informed differential diagnoses; and recognise the scope of midwifery practice, initiate appropriate referrals to other healthcare providers, and provide emergency care when required.

Admission Requirements

Applicants are required to posses a minimum 2.1 Honours degree in General Nursing. For further information visit here. Only candidates who have attended an application interview may apply for the course.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Midwifery Practice and Leadership M.Sc. / P.Grad.Dip.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Dr. Margaret Dunlea
Email	pgt.nursing.midw@tcd.ie
Closing Date	30th June 2026

This course is designed for experienced midwives who are looking for professional development and promotion within midwifery practice, health service management, and education.

Trinity's midwifery teaching team has a strong track record in advancing midwifery nationally and internationally. This is achieved through research and in supporting education in academic and clinical practice. The teaching team also represents midwifery on regulatory (NMBI) and Irish health service (HSE) bodies. We are delighted to be able to encourage and support Ireland's future midwifery leaders. Students who successfully complete Year One may choose to exit with a Postgraduate Diploma in Midwifery, or proceed to second year where they complete the Masters in Midwifery.

Career Opportunities

The course will provide midwives with a thorough understanding of midwifery theory, practice, education, management, and research. By developing and building on subjects undertaken at undergraduate degree level, graduates of this course will possess the skills necessary for advancing knowledge, initiating and encouraging innovation, and leading and developing midwifery practice.

Admission Requirements

Applicants must hold:

- Registration as a midwife with the Nursing and Midwifery Board of Ireland.
- A minimum of one year full-time recent clinical midwifery practice or equivalent since registration as a midwife.
- An Honours undergraduate degree in Midwifery or a related discipline, or equivalent professional and academic qualification.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Nursing M.Sc.

Course Page Link → Course Video Link →

Duration	1 year full-time / 2 years part-time
Course Director	Dr. Margaret Dunlea
Email	pgt.nursing.midw@tcd.ie
Closing Date	30th June 2026

The M.Sc. in Nursing will enable students to develop the knowledge, skills and attitudes necessary to care for patients to the highest professional standards across the healthcare continuum.

This course will provide students with a solid academic base to understand the development of nursing practice. In applying their learning, candidates are expected to provide quality nursing care and promote excellence in the practice setting. The modules offered are grounded in a body of evidence-based knowledge that promotes excellence in nursing practice.

Take the opportunity to study at the School of Nursing & Midwifery, which is ranked 20th in the world in the QS World University Subject Rankings 2025, and where your world-class education will be matched with an unrivalled student experience.

Career Opportunities

The M.Sc. in Nursing provides a pathway to career advancement. Graduates often pursue careers in healthcare consulting, research, and specialist nursing. This includes positions in advanced practice, clinical nurse specialist

roles, administration, nurse consultant, nurse educator, and research nurse.

Admission Requirements

Applicants must hold at least an upper second-class (2.1) Honours undergraduate degree in nursing or a related discipline or equivalent professional and academic qualification.

They must also hold current registration as a nurse with the Nursing and Midwifery Board of Ireland, or, in the case of international applicants (for theory-only learning strands), be registered as a professional nurse in their own country.

Students will be required to undergo Garda Vetting, you can learn more here.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.

Faculty of Health Sciences

Pharmacy and Pharmaceutical Sciences

Pharmaceutical Sciences M.Sc. / P.Grad.Dip.

Course Page Link →
Course Video Link →

Duration	1 year full-time
Course Director(s)	Dr. Maria Jose Santos-Martinez, Dr. Eduardo Ruiz-Hernandez
Email	griffilo@tcd.ie
Closing Date	26th June 2026

The M.Sc. in Pharmaceutical Sciences is an integrated multidisciplinary course addressing fundamental and applied aspects of drug and drug product discovery, development, production and analysis. The programme will prepare candidates for research careers in academia and industry in pharmaceutical R&D, as well as will create an awareness of issues and approaches relevant to Ireland's pharmaceutical manufacturing sector.

The School of Pharmacy and Pharmaceutical Sciences at Trinity is the leading research School of Pharmacy in Ireland. This M.Sc. in Pharmaceutical Sciences course is the only such degree offered in Ireland by a specialist School of Pharmacy centre.

This course is designed for students with a degree in a relevant Science discipline, such as Pharmacy, Chemistry, Analytical Chemistry, Microbiology, Biochemistry, or Pharmacology. If you want to develop your skills in research and pharmaceutical manufacturing, and expand your career options, then this course is for you.

Career Opportunities

This course will prepare candidates for careers in pharmaceutical research relevant to academic and manufacturing sectors, as well as create an awareness of issues and approaches relevant to the key pharmaceutical manufacturing sector in Ireland. Graduates have enjoyed successful careers in manufacturing, in R&D and in regulatory affairs.

Admission Requirements

Applicants are sought from holders of an upper secondclass (2.1) Honours degrees in a relevant science disciplines, including Pharmacy, Chemistry, Analytical Chemistry, Microbiology, Biochemistry, or Pharmacology, or other appropriate programmes, such as Medicine or Veterinary.

English Language Requirements

All applicants to Trinity are required to provide official evidence of proficiency in the English language. Applicants to this course are required to meet Band B (Standard Entry) English language requirements. Visit the English Language Requirements page for more details.
